How To Use This Document

This document is divided into two parts. The first part details every clarification that has been made in Heroclix for all game elements. These 36 pages are the minimal requirements for being up to date on all Heroclix rulings.

Part two is a reference guide for players and judges who often need to know the latest text of any given game element. Any modification listed in part two is also listed in part one; however, in part two the modifications will be shown as fully completed elements of game text.

[This page is intentionally left blank]

Section 1: Rulebook

General

- Many figures have been published with rules detailing their abilities. The specifics of these abilities are overridden by the description of the ability in the *Fantastic Four Rulebook*.

Break Away

- Any action that involved break away ends immediately if the break away roll fails (unless the game effect specifically says otherwise). For example, a character cannot pick up an object if it fails to break away. If the character used a move action to attempt to break away and failed, and has a team ability that allows it to make a move action without using one of its allotment of actions for the turn, then the break away attempt does not count towards its allotment of actions.

Colossal Characters

- Colossal characters require a doorway at least as wide as the base of the figure in order to pass through it.
- Colossal characters ignore the Danger Girl and Skrulls team ability.
- Colossal characters may make ranged attacks against non-adjacent opposing characters that they can draw a line of fire to even if they are currently adjacent to an opposing character.

Compatibility

- All **HeroClix** game lines are compatible with all other **HeroClix** game lines. **HeroClix** has two game systems. **HeroClix: Alpha** characters can be played in **HeroClix** by treating every colored power as a standard power (not the description on the character card) and by using the character card for the keywords. See the **HeroClix: Alpha FAQ** for how to use **HeroClix** characters in the **HeroClix: Alpha** game system.

Critical Hits

- Critical Hits increase the damage dealt to each character for all attacks, range combat or close combat, and no matter how many characters are hit with the attack.

Double Based Characters

- If a double-base character has half of its base in hindering terrain and half of its base in clear terrain, it is starting its movement in hindering terrain regardless of which end the movement is lead with.
- If a double-base character has half of its base in hindering terrain and half of its base in clear terrain, only the half that is in hindering terrain would gain any benefits of hindering

terrain when a line of fire is being drawn to the double-base character.

- All figures that are larger than a single base are subject to the rules related to double-base characters.

Feats

- Page 19, the third paragraph of **Assigning feats** begins: “If a character can use a power or ability via a special power or trait, it can be assigned a feat...”
- Characters that are removed from the battle map and placed on feat cards are not affected by Battlefield Conditions.
- Characters that are removed from the battle map (but not eliminated) are not affected by game effects that characters on the battle map possess (unless the effect removing them from the battlefield specifically says that they are). Characters that are removed from the battle map (but not eliminated) may not use their own powers, team abilities, or feats except as stipulated by the effect removing them from the battlefield.

Free Actions

- Any game effect that grants the character a free action can never use that free action to initiate the action that granted the free action in the first place. (For example, the power action of Multiattack cannot be used to give the character a power action for another Multiattack).

Giant Characters

- A giant character must be one square away from blocking terrain to destroy it with a close combat attack.
- A friendly giant character can be moved with Telekinesis. An opposing giant character cannot.

Initiative

- There are many mechanics which require player(s) to select things at the beginning of the game. The initial roll off between players to determine who goes first is used to determine which player performs all of their “start of game” decisions first.

Keywords

- Diacritics (such as the dots above an ü) are the same as their standard letter counterpart. For example, Blüdhaven is the same as Bludhaven
- All capitalized forms of keywords are the same as non-capitalized. For example, Central City (Justice League #027, The Flash) is the same as CENTRAL CITY (Justice League #102, The Flash).

Lines of Fire

- When a character has the ability to ignore the effects of other characters for line of fire purposes, it refers only to

the fact that character bases do not affect the line of fire. This ability alone would not allow the character drawing a line of fire to ignore powers or abilities by other characters.

- When a character draws a line of fire to an object held by a character, they do not need to draw a line of fire to the character holding the object, only the square itself. Therefore, abilities like Stealth would not prevent the line of fire from being drawn.

Objects

- Page 14, Attacking with an object using Telekinesis, says for the second to last sentence: “Make a ranged attack as if the character using Telekinesis were in the square occupied by the object (as shown in Figure 20) and had a range value of 8 that cannot be modified.”

Penetrating Damage

- The glossary entry for this says “damage that can’t be reduced by powers or traits that reduce damage.”

Powers

- When a special power indicates that a character “can use” a standard power in some way, the use of that standard power must be decided as an action is given and remains in use (or not in use) for the duration of that action including any free actions that are granted by the given action.

Terrain

- Walls that are destroyed in the middle of an action are considered destroyed immediately within the action. The adjacent terrain does not become hindering terrain until the end of that action.
- If one type of terrain exists behind other types of terrain, each terrain type must be destroyed separately (see “Walls”).
- If the line of fire between two characters in continuous hindering terrain never crosses a boundary line of hindering terrain, the hindering terrain modifier still applies.
- Two squares of diagonally adjacent terrain that are not the same type (such as a square of hindering and a square of blocking) are clear for movement purposes.
- An “area of terrain” is a square or group of squares that are enclosed by a single colored line. 2 sets of colored lines that overlap or are adjacent are separate areas of terrain.

Walls

- All walls are assumed to stop exactly at the edges of squares. Even if it looks like a wall “sticks out” into a doorway, it doesn’t, and thus diagonal attacks can pass through without being blocked.
- A square of blocking terrain on the opposite side of the wall does not block the line of fire to that square when targeting a wall with a ranged attack.
- If blocking terrain exists on the opposite side of a wall, destroying the wall does not destroy the blocking terrain.

Only place a rubble token on the side of the wall without the blocking terrain. A separate attack must be made to destroy the blocking terrain.

Section 2: Powers and Abilities

Barrier

- Blocking terrain markers can be destroyed as per the rules for destroying blocking terrain. They would be replaced with rubble tokens when destroyed. The rubble tokens are removed from the game the same time that the normal blocking terrain markers are removed from the game.

Capture

- On page 18, the first phrase says: “Give this character a power action and make a close combat attack against a single target opposing character with the standard damage symbol;”
- If a character is holding an object when captured, the object is placed in the square the character occupied when captured. If there is an object already in the square, the dropped object would be removed from play.
- If a character using this ability loses it, then any captives are released.

Charge

- Characters using Charge still follow standard rules of movement, including break away and the ability to carry other characters. However, a carried character must be dropped before the Charging character uses the Free Action portion of Charge to attack.
- A Charge out of hindering terrain works at one-fourth the character’s initial speed. First, the character’s move is halved (provided it does not have any powers or abilities that allow it to ignore the effects of hindering terrain on movement) because it begins its move in hindering terrain. Then the move is halved again if the character chooses to use Charge.
- A character using Charge with Super Strength cannot pick up an object as it moves into a square adjacent to an opposing character, unless the Charging character has another power or ability that allows it to ignore the effects of other opposing characters on movement.
- Before the attack roll is made, a character may turn off its Charge ability to intentionally take knock back.
- If a character can pick up an object during the move portion of the Charge, they would also have to use it for the attack.
- When a character uses Charge and the Carry ability, the standard rule of “replace, then modify” applies. The speed would first be halved and then, if another character is carried, it would be reduced by 2.

Combat Reflexes

- A character that is normally immune to knock back that has Combat Reflexes can choose to take knock back when hit with a successful attack. When this option is selected, the attacking player still gets to choose the direction of the knock back (if a choice can be made).

Defend

- Defend may work with more than two characters, as outlined below:
ABC – “A” has Defend; its defense is 18. “B” has Defend; its defense is 17. “C” does not have Defend; its defense is 15. “A” can share its defense with “B,” making “B’s” defense 18. “B” can share its defense, now 18, with “C,” making “C’s” defense 18 as well.

Earthbound/Neutralized

- Earthbound/Neutralized is Non-Optional and cannot be ignored.
- A transporter that gains Earthbound gains the standard boot type speed symbol. It is not a transporter when it has a standard speed symbol.
- Any abilities that a character can use because of the combat symbol they possess are unavailable when Earthbound/Neutralized as the character’s combat values all change when this power is in use.

Energy Explosion

- All characters that take damage from an Energy Explosion attack suffer knock back (if applicable), except the figure using the power. These characters must all move away from the character that used the power, starting with those farthest from the attacker.
- All damage from the Energy Explosion attack is dealt at once. If a character were hit by both an EE attack and splash damage, then that character would be dealt 2 damage. If the character had Toughness it would be dealt 2 damage, minus 1 for the Toughness for a total of 1 damage.

Enhancement

- A Damage Value increased by Enhancement may be used to attack objects and walls in a ranged combat attack.
- If Enhancement is used with a multiple-target attack, the Damage Value is modified before damage dealt is divided between successfully-hit targets.

Flurry

- When attempting to destroy terrain, a character using Flurry must still deal a minimum of 3 damage using one attack.
- Any optional powers that are not in use when the first attack is made with Flurry cannot be used for the second attack.

Giant Stride

- The first sentence of this ability reads “This character ignores the effects of characters and hindering, elevated, and outdoor blocking terrain on movement, but must still break away from adjacent characters.”

Hypersonic Speed

- All references to “Hypersonic Speed, Option 1” refer to the power Hypersonic Speed.
- If a character can pick up an object during the move portion of the action before they attack, they would be required to use it if they make a close combat attack. They would not be able to use an object for a ranged attack as doing so requires a ranged combat action (the power only provides a ranged combat attack).
- If the target character is eliminated by the attack, it is removed from the board immediately and the attacking character can occupy that square.
- A flying Hypersonic Speed character can carry another figure while performing this action, however the carried character is “off the board” for the entire movement, including the portion of the movement when the attack takes place. As such, powers and team abilities of the carried character (like Probability Control, Enhancement, etc.) cannot be used.
- The Hypersonic Speed character commits to the square from which the attack will be made prior to making the attack. If the attack becomes illegal (e.g., Shape Change, Skrulls, etc.), the attack can be made against a different target, though a different square cannot be selected. Note that Stealth and wildcard selection would need to be declared with the declaration of HSS’s power action, not with the commitment of the attack square.

Mastermind

- Damage dealt from knock back (from hitting a wall or falling) may be dealt to other characters by using Mastermind, if the other characters are adjacent to the square in which the knocked-back character stops.
- Any damage that is dealt as a result of Mastermind retains any of the properties that it had when dealt to the original character. Penetrating will still be penetrating, damage that includes objects are still treated as such, etc.
- Damage transferred with Mastermind can only be directed to one character, even if the damage transferred is more than enough to KO the adjacent character.
- If the attack dealt knock back, when the damage is transferred, the adjacent character would be knocked back away from the attacker (not necessarily the Masterminder).
- Damage that is transferred with this power is still damage dealt and is subject to damage reducing powers.
- Mastermind only works against damage dealt. Abilities like Mystics that generate damage taken and therefore cannot be transferred with this power.

Mind Control

- If a character affected by Mind Control KOs another opposing character, or is KOd itself, the controlling player receives the victory points.
- When a character is affected by Mind Control its powers and team abilities, even those powers and team abilities cancelled by the opposing player, may be used as normal. Powers previously countered with Outwit remain

countered. Powers that may only be used once per turn may only be used once during the free action.

- A character that has both Mind Control and Super Strength and is holding an object does not have to use that object when making a close combat attack with Mind Control.
- A character that is targeted with Mind Control cannot use any feats during the Mind Control action.

Multiattack

- Colossal characters using the multiattack ability must make an attack during each of the free actions granted by multiattack. Feats may not be used when using actions granted by Multiattack.
- The Capture ability may not be used via the free action granted by Multiattack.
- The fifth sentence reads: “This character’s damage value is modified by -1 to a minimum of 1 damage.”

Outwit

- If a countered power no longer shows on the dial, but then returns to the dial before the beginning of the Outwitting player’s next turn, the power is still countered.
- Once Outwit has been used, the line of fire between the target and the outwitter does not need to be maintained.
- Outwit counters powers which is different from ignoring a power. Powers like Exploit Weakness and Psychic Blast ignore damage reducing powers while Outwit could be used to counter the damage reducing power. See the Glossary in the rulebook for more information.

Perplex

- Perplex may be used by more than one character per turn on a single character’s given combat value.

Phasing/Teleport

- A character using Phasing/Teleport that has the ability to carry characters can carry characters through blocking terrain and such as it uses Phasing/Teleport.
- A character using Phasing/Teleport that has the ability to pick an object up can do so while using Phasing/Teleport.

Poison

- The damage dealt from poison is like all damage dealt and can be reduced by damage reducing powers.

Probability Control

- The rule of thumb for using Probability Control is “your own dice on your turn, your opponents dice on your opponent’s turn.” The typical roll of something like Super Senses would be the defender’s roll on the attacker’s turn, and so neither team would be able to use Probability Control.
- Rolling either a critical hit or a critical miss does not prevent the roll from being subject to Probability Control.

Pulse Wave

- Powers ignored by Pulse Wave are not considered countered. Powers out of the range of the Pulse Wave attack still affect it normally. If a character using Perplex

or Outwit is within range of the Pulse Wave attack, that power is considered “in range” and is ignored during this attack.

- While Pulse Wave ignores powers and abilities, it does not counter them. Therefore, terrain created as a result of using a power is considered terrain and affects Pulse Wave normally, even if the character generating that terrain is within range of the Pulse Wave. Characters holding an object due to a feat or power would still be able to hold the object and even use the held object (if it helps defensively).
- Characters with feats or team abilities that affect what happens upon their KO (such as Fantastic Four or Lazarus Pit) are still ignored during the Pulse Wave action. They still have a team symbol and are considered members of their teams, so characters outside the range of the Pulse Wave can benefit.
- Powers, feats, and team abilities possessed by someone inside the range of the Pulse Wave that normally prevent knock back would be ignored if doubles are rolled during the Pulse Wave attack.
- A character’s own powers, feats, and team abilities would not be ignored during the Pulse Wave attack.
- The second sentence begins “All powers, traits, and team abilities possessed or used...”

Quake

- When using Quake in an attack, the damage value may not be increased beyond 2.
- When using Quake against multiple opposing characters and one or more of the characters becomes an illegal target (due to Shape Change, Skrull, etc), the attack is still made against all legal targets. If there are no legal targets then the attack cannot be made.

Running Shot

- The last sentence of this power reads “The character must be able to make a valid ranged combat action from the square where it ends its move in order to use this power.”
- Characters using Running Shot still follow standard rules of movement, including break away and the ability to carry other figures. However, a carried figure must be dropped before the character using Running Shot uses the Free Action portion of Running Shot to attack.
- A Running Shot out of hindering terrain works at one-fourth the character’s initial speed. First, the character’s move is halved (provided it does not have any powers or abilities that allow it to ignore the effects of hindering terrain on movement) because it begins its move in hindering terrain. Then the move is halved again if the character chooses to use Running Shot.
- If a character can pick up an object during the move portion of the Running Shot, they would be able to use it for the attack as well (though it is not required as with a close combat attack).
- When a character uses Running Shot and the Carry ability, the standard rule of “replace, then modify” applies. The speed would first be halved and then, if another character is carried, it would be reduced by 2.

Shape Change

- If Character B makes a successful Shape Change roll against Character A's attempt at targeting Character B, then Character A cannot target Character B with an attack for the rest of the turn.
- If a successful roll of Shape Change is made, but the action declared is not illegal, then the action must continue as stated.
- Shape Change activates only when the character is the target of an attack. Indirect damage, like from Energy Explosion “splash”, Poison, or Mastermind, would not activate the power.
- The last sentence reads “If the action becomes illegal, the attacker must choose another legal action to perform, if possible. The selected action must be free or non-free based on what action type was given to it that led to the attack.”

Sharpshooter

- This ability allows the character to make a ranged combat action/attack while based. If the attack targets, then adjacent character(s) must be the targets of the attack. Regardless of targets, non-adjacent characters can be affected by the attack (such as would be the case with powers like Pulse Wave and Energy Explosion).

Smoke Cloud

- When a power lets a character use Smoke Cloud but limits the terrain markers to squares the character moved through, the character can place markers in squares it moves through as a result of being moved with TK.

Stealth

- Adjacency is not an issue when determining a line of fire to a character using Stealth and occupying hindering terrain. Powers like Probability Control, Perplex, and Outwit, which use a line of fire to determine if the effect can take place, cannot target a character using Stealth that occupies hindering terrain, even if the character with the ability is the character using Stealth itself.
- A giant character that uses Stealth cannot have a line of fire drawn to it when in hindering terrain, regardless of the elevation of an opposing attacking figure.

Super Strength

- If a character is given an action that requires break away and that break away attempt fails, then there is no movement and an object would not be able to be picked up, even if it is adjacent to the character at the start of the action.

Telekinesis

- The second sentence says: “For all options, this character must have a clear line of fire to the target and must be 8 or fewer squares away.”
- Characters moved with Telekinesis do not suffer damage from hitting terrain (you cannot slam a character into a wall or hurl them off a building with Telekinesis).
- A character may use Telekinesis to move a character holding an object.

- When using Telekinesis to move an object into a square occupied by a character, that character does not block line of fire to that square.
- A friendly character moved via Telekinesis can still take a non-free action the turn it was moved (though it cannot use Telekinesis).

Section 3: Characters and Special Powers

General

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be different from a legal WizKids-released version of the element. This policy does not apply to 3D elements, though it does apply to the card that accompanies it.

Justice League

#001 Batman

- To use Out of the Shadows: (1) Announce the type of non-free action Batman will take, even if it is not a legal action from his current position, as long as it can be legally done from step 3. (2) Reposition Batman from a square of hindering terrain to another square of hindering terrain. (3) Perform the declared action.
- Batman does not need to break away from an adjacent character in order to be placed with Out of the Shadows.

#007 Icicle

- Action tokens are only assigned when the barrier terrain tokens are placed with Copsicles, not if a character moves or is moved adjacent to them.
- 2 squares of diagonally touching barrier terrain tokens will prevent adjacency between a character and another barrier terrain token on the opposite diagonal.

#009 Emperor Joker

- Unpredictable Omnipotence's rule text replaces "unpreventable damage" with "unavoidable damage".
- When Joker Makes the Rules is used to counter all powers on a character, it causes new powers to appear on the dial to also be countered, as the character's dial changes.

#016 Bouncing Boy

- The keyword "Legion" is "Legion of Super Heroes".

#017 Parasite

- Parasite can not be given a power action to activate Defense Drain.

#026 Captain Boomerang

- When using Boomerang, making an attack "as if he occupied the square" is for range, knock back and line of fire. All other conditions, such as using an ability that requires adjacency or line of fire, Captain Boomerang is still in his original square.

#028 Zatanna

- onrefn! is an attack power, not a damage power.

#033 Vigilante

- This character has a Transporter Boot symbol instead of the Transporter Wing symbol.

#035 Deadman

- Feats assigned to the target character cannot be used while possessed.
- Feats assigned to Deadman cannot be used by Deadman while he is possessing a character.
- If Deadman must stop possessing a character and there is no square to which a line of fire can be drawn, Deadman is placed in the closest available unoccupied square. If

Deadman chooses to stop possessing a character but has no available square, then he cannot stop possessing the character.

- Possession is not Mind Control. Characters that normally cannot be targeted with Mind Control can be targeted with Possession.
- If Possession is used on the opponent's last character, then the game would end. Each player would calculate victory points they have earned and the winner would be determined accordingly.

#041 Mr. Mxyzptlk

- When using Object Animation, the line of fire only needs to be drawn to the square(s) – not the character(s).

#048 Dream Girl

#051 Lobo

- Nobody Rides This Hog but the Main Man cannot be canceled.
- If Bounty Hunter is outwitted, when it returns, a new target character may be selected.

#046 Arcade

- When objects are moved with Murderbots, they use Arcade’s speed symbol as well as his value.

#047 Super-Adaptoid

- See Justice League #017 Parasite for clarifications on “Attack Drain” and “Defense Drain”.

- For clarifications on Possession, see Justice League #035 Deadman

#021 Rip Hunter

- Characters that have had their standard/named powers countered that become adjacent to Rip Hunter, no longer have those powers countered if he is using Time Master.
- If a character adjacent to Rip Hunter is targeted by a power like Joker Makes the Rules (see Justice League #009, Joker), Time Master would prevent all of the standard and named powers from being countered.
- If Rip is the target of a power like Joker Makes the Rules (see Justice League #009, Joker) then his special power would be countered along with all of his standard/named powers, despite using Time Master.

#024 Karate Kid

- The keyword “Legion” is “Legion of Super Heroes”.

#026 Green Arrow

- If Green Arrow uses Hail of Arrows and hits three targets when his damage value was two, there would be a total of five damage to be dealt to the various targets.

#036 Chief

- When removing Manipulate tokens, Probability Control can be used on the d6 roll. The Chief is the character that needs to be targeted for this line of fire.
- If the d6 roll is a 1-2, and The Chief has more Manipulate tokens on his card, he may continue to use Manipulate until he has no more tokens.
- If a force has more than one Chief, each can use this power at the beginning of the turn. Only one action for the action pool can be acquired this way, but each Chief can roll to try to place a Manipulate token.
- When The Chief uses Manipulate to add a token to his card it replaces all other effects of the Leadership roll (e.g., if The Chief was equipped with Tactics, he would choose between a Manipulate token or 2 actions with a successful Leadership roll).

#039 Harbinger

- Harbinger can only use You Are Needed to choose a character that has the same size base as her.

#045 Trigon

- When a Doppelganger is destroyed, it is removed from the game.
- If Doppelganger is outwitted, any doppelganger tokens from that power are removed from the battlefield.

#048 Darkseid

- Option 3 of Omega Effect begins “Darkseid’s damage value is 0 for the duration of the action.”

#054 Alex Luthor

- If ignoring a battlefield condition while using Earth 154 + Earth 462 results in a character being placed in an illegal square (e.g., blocking terrain), it would be moved by the active player to the closest square it could occupy.

#059 The Spectre

- Ghostly Guardian reads “... and possesses the Justice Society team ability.”

#060 Monitor

- This character has the wing symbol instead of the boot speed symbol.

#100 Superman

- The special power “Leading the Attack” begins: “Once, at the beginning of your turn, if Superman is adjacent to an opposing character, he can make a close combat attack as a free action, but he can’t attack that character again during that turn.”

#102 Donna Troy

- The Lasso special power ends “... at the same elevation as Donna Troy.”

- Purple Ray does not require line of fire. Donna Troy cannot target herself with this power.

#103 Garth

- Salvage allows Garth to pick up an object under different circumstances. Super Strength would still need to be used by Garth in order to do the picking up/holding.

#225 Anti-Monitor

- The Experience Level is Silver (Unique).
- If Anti-Monitor uses Quake during a Multiattack, he is still limited to targeting no more than 2 characters.

Batman Alpha

#011 Huntress

- This character's point value is 50.

#014 Alfred

- This character's point value is 30.

Secret Invasion

#002 Moloid

- Overwhelm is an attack power, not a speed power.

#006a Yellowjacket

- Yellowjacket's trait says: "Yellowjacket possesses the Avengers team symbol. He doesn't possess the Skrulls team symbol."

#006b Yellowjacket

- Yellowjacket's trait says: "Yellowjacket possesses the Skrulls team symbol. He doesn't possess the Avengers team symbol."

#007 Atlantean Warrior

- Being able to use Stealth with Aquatic Invader does not cause all lines of fire to be blocked – hindering terrain must still affect the line of fire.
- Since Atlantean Warrior gets +2 to his speed at the beginning of the turn when using Aquatic Invader, it is not simultaneous to the halving of his speed when using Charge. Therefore, in order to calculate his speed value for Charge you would account for all modifiers that occurred before Charge (including the +2 for Aquatic Invader) and then halve the speed.

#008a Ms. Marvel

- Ms. Marvel's trait says: "Ms. Marvel possesses the Avengers team symbol. She doesn't possess the Skrulls team symbol."

#008b Ms. Marvel

- Ms. Marvel's trait says: "Ms. Marvel possesses the Skrulls team symbol. She doesn't possess the Avengers team symbol."

#015 Energizer

- Once markers are removed, the square returns to the terrain type that is showing on the map.

#016 Hercules

- Olympian, The Incredible Herc, and Peerless Warrior all have an Indomitable defense symbol, not the standard defense symbol.

#021 Iron Man

- The second sentence of Extremis reads: "When Iron Man is not using Outwit, he can use Super Senses."

#022 Goliath

- When using Throw, the damage dealt that is multiplied by 2 to get the knock back distance is the final damage dealt after all modifiers have been considered, including critical hits and damage reducing powers.

#024 Spider-Slayer

- The last sentence of Tracking Systems reads: "...if it ends the second move adjacent to the chosen character."

#028 Attuma

- When using Tidal Wave, Attuma can use Quake, so long as at least one opposing characters is targeted.

#030 Punisher

- When using Chaingun, all target characters must be within Punisher's range.
- Resolve each follow up attack from Chaingun before moving on to the next attack. If Punisher loses Chaingun after any attack, no further attacks with Chaingun can be made.

#032a Dum Dum Dugan

- Dum Dum Dugan's trait says: "Dum Dum Dugan possesses the S.H.I.E.L.D. team symbol. He doesn't possess the Skrulls team symbol."
- Deputy Director (Leadership), Perplex and Marksman (Ranged Combat Expert) are all damage powers, not defense powers.

#032b Dum Dum Dugan

- Dum Dum Dugan's first trait says: "Dum Dum Dugan possesses the Skrulls team symbol. He doesn't possess the S.H.I.E.L.D. team symbol."
- The terrain selected by Dum Dum Dugan for S.W.O.R.D.fall does not return to its previous state even when Dum Dum Dugan is KO'd.
- The last sentence of S.W.O.R.D.fall reads: "This area is considered to be clear grounded terrain until the end of the game."
- The selected area from S.W.O.R.D.fall does not remain clear grounded terrain regardless of other game conditions. Terrain markers, objects, etc. would all behave as hindering/blocking terrain as normal.

#033 Dr. Strange

- If Wand of Watoomb is used to target more than one character with Perplex (like with the feat Brilliant Tactician), a d6 would be rolled for each target of Perplex.

#037 Triton

- Aquatic Scout's second sentence begins "When Triton occupies water terrain, any line of fire drawn to him..."

#040 Doom

- When using Powerless to counter all powers or all abilities, Doom must still draw a line of fire to the target.
- Outwitting all abilities of a character with Powerless refers to the Combat Abilities listed on page 16 of the rulebook.

#042a Captain Mar-Vell

- Captain Mar-Vell's trait says: "Captain Mar-Vell possesses the S.H.I.E.L.D. team symbol. He doesn't possess the Skrulls team symbol."

#042b Captain Mar-Vell

- Captain Mar-Vell's trait says: "Captain Mar-Vell possesses the Skrulls team symbol. He doesn't possess the S.H.I.E.L.D. team symbol."

#048a Elektra

- Elektra's trait says: "Elektra possesses the Hydra team symbol. She doesn't possess the Skrulls team symbol."
- **The first keyword is "The Hand"**

#048b Elektra

- Elektra's trait says: "Elektra possesses the Skrulls team symbol. She doesn't possess the Hydra team symbol."
- Elektra has the keywords "Skrulls, Spy"

#049 Ringmaster

- The limitation on Mind Control for Top Hat applies only when Ringmaster is using the special power to increase the number of targets he can affect.

#051 Nick Fury

- When Nick Fury uses L.M.D., he is moved to a corner of the map whether the damage was dealt from an attack or not.
- When Nick Fury uses L.M.D. and the attack involves knock back, the attack would be resolved first, then the Nick Fury would be put in an unoccupied square, then the knock back would take place.

#053 Skrull Emperor

- The character card has Shape Change listed on it.
- The only difference in the use of Outwit for Scheme is that it can affect multiple characters. Other requirements – like having a line of fire to each target – are still required.
- Named powers are considered to have their standard name for purposes of this power. That is, if Skrull Emperor were to choose Super Senses, then Mephisto's Shapeshifter power would be countered as well.
- If a special power is selected to be countered with Scheme, all characters with a special power of the selected name would be countered, even if the effects are different or in a different combat slot.

#057 Jarvis

- This character has both the Skrulls and Avengers team symbols.

#058 Power Man and Iron Fist

- Wallbuster, Deadly Hands of Kung Fu (Blades/Claws/Fangs), and Power Man are all Duo Attack powers, not standard attack powers.

#099 Susan Richards

- Susan Richards's character card has a point cost of 120.
- Although Susan Richards ignores terrain for her ranged attacks when she uses To the Negative Zone, characters can still use terrain for the attack. For example, a character with Camouflage would still have lines of fire to it blocked.

#100 Spider-Woman

- Spider-Woman's character card has a point cost of 79.

#104 The Thing

- The last sentence of Yer Ever-Lovin' Pal reads: "On a result of 5 or 6, you can remove an action token from one adjacent friendly character, or two adjacent friendly characters if they and the Thing all possess a single common keyword."

#105 Dr. Doom

- When using Kneel Before Doom!, each character targeted by Doom that is hit would only be dealt his damage value – no additional damage for adjacency would be dealt to the targets.

#112 Sue Storm

- Characters taking knock back from Get Away from Him! are moved away from the square Sue Storm drew a line of fire to for the attack.

#113 Johnny Storm

- Pour It On! reads: "Johnny Storm can use Energy Explosion, when he does, characters successfully hit are dealt damage equal to the number of times it was hit by this attack times two."

#115 Victor Von Doom

- Unquestioned has an Indomitable defense symbol, not the standard defense symbol.

Arkham Asylum

#011 The Riddler

- Riddle Me This begins "The Riddler can use Incapacitate once per turn."
- Riddle Me This ends "if the chosen number comes up on both dice, give the target enough action tokens so that it has two actions tokens."
- When Riddler uses Perplex with They'll Never Get This One, the restriction prevents him from targeting friendly characters altogether.

#027 Firefly

- Flamethrower ends "... same square that the target occupied at the time of the attack."

#030 Amon Sur

- Self Preservation's second sentence begins "When Amon Sur takes damage from an attack, ..."

#034 Robin

- Batline only allows Robin to ignore clear elevated terrain. Walls, hindering and blocking terrain (even on elevated terrain) would not be ignored.

#057 Saturn Queen

- To use Mind Squeeze, the Incapacitate action must be completely resolved, including Saturn Queen taking a token and push damage if necessary. When she uses Mind Control as a free action, all other aspects of the Mind Control action – requirements on range, line of fire, Shape Change rolls, etc. – must be met in order to attempt the attack.

#061 Clown Prince of Crime

- If Clown Prince of Crime is Possessed, the possession ends when ^[A] symbols appear as if the character were KO'd.

#099 Batman

- From Among the Gargoyles ends with "when he occupies the rim square and a line of fire is being drawn to him."
- Dark Knight ends "...once per turn."

#104 Grodd

- Grodd's character card does not have a team symbol on it.

Hammer of Thor

#009 Pip the Troll

- Space Gem begins "Pip the Troll can use Phasing/Teleport. He can use it normally, or if he is not using the Carry ability, you can instead place him in any square..."

#015 Fire Demon

- March to Ragnarok! begins "When a friendly character named Surtur or Ragnarok Surtur is within 8 squares..."

#026 Pluto

- Soul Syphon reads "When a friendly character with 30 or higher point value is KO'd, Pluto may be placed in the square they occupied after any current actions are resolved. If Pluto does, he can immediately use Regeneration as a free action."

#044 Air-Walker

- Air-Walker's character card has a red experience level.

#051 Odin

- Odin's character card has a red experience level.

#061 Thor's Mighty Chariot

- When his trait allows him to "make ranged combat attacks against any opposing characters that it has a clear line of fire to" it is only allowing Thor's Mighty Chariot to make a ranged attack while adjacent to an opposing character (against a character that is not adjacent). It does not override the need for Thor's Mighty Chariot to have the target in range.

#099 Thorbuster

- When using To Fight A God and targeting a qualifying character and a non-qualifying character (e.g., say if Thorbuster was using the Ambidextrous feat), if the qualifying character is hit, 2 damage can be dealt to it before assigning any of the "natural" damage from the attacking character.
- When using To Fight A God and targeting more than one qualifying character Thorbuster's damage value is only increased +2 once, not once per target.

#105 Thor, the Reigning

- The special power Odinsleep cannot be canceled.

Section 4: Special Characters

General

- When a special character's printed rules indicates that they possess an ability that is documented in the latest rulebook, the rules from the rulebook override the printed rules for the character.

Dark Phoenix

- Replace the first sentence of the first paragraph under Special Rules with: "Dark Phoenix ignores the Exploit Weakness, Force Blast, Incapacitate, Mind Control, Plasticity, Poison, Psychic Blast, Shape Change, Steal Energy, and Support powers, as well as team abilities that duplicate these powers."
- Replace the second sentence under Actions and Pushing with "Dark Phoenix may be pushed each turn; it will not be dealt pushing damage while the Power Cosmic team ability is active."

Galactus

Scenario Rules

- Under **Combat**, replace the sixth paragraph with: "Galactus can attack and be attacked by grounded and elevated characters."
- Probability Control cannot be used against Galactus' rolls, as Galactus doesn't have a turn.
- Galactus does not retaliate if damaged during its action.
- Galactus is not forced to respond with the same kind of attack that damaged him.
- If the character who dealt damage to Galactus is KOed before Galactus retaliates, then Galactus does not retaliate.
- If Galactus retaliates against more than one character after being dealt damage and misses the character that dealt damage to Galactus but hit one or more other characters, then Galactus may divide his full damage among the characters successfully hit.
- When retaliating, Galactus may still use the Pulse Wave ability, even though it doesn't specifically target a figure, if the figure that damaged Galactus is within range of Galactus' Pulse Wave.
- Galactus' retaliation occurs immediately after the first action resolution that results in Galactus taking damage. For example, during the first option of a Hypersonic Speed attack, Galactus would retaliate immediately after the free action that resulted in Galactus taking damage resolves, before the figure using Hypersonic Speed completes its movement. If Galactus takes damage from the first free action of a Multi-Attack or Cosmic Multiattack, Galactus would retaliate before the second free action occurs; if the second free action also resulted in Galactus taking damage, he would retaliate after that action as well.

Part of a Force Rules

- Add the following to the first paragraph under **Movement**: "Galactus ignores the effects of team abilities on movement."
- Add the following to the first paragraph under **Movement**: "Galactus ignores indoor blocking terrain for movement purposes. Any indoor blocking terrain Galactus crosses is destroyed; mark blocking terrain destroyed in this manner with two rubble markers."
- Replace the first sentence of the first paragraph under **Powers and Abilities**: "Galactus ignores the Exploit Weakness, Force Blast, Incapacitate, Mind Control, Plasticity, Poison, Psychic Blast, Shape Change, Steal Energy, and Support powers, as well as team abilities that duplicate these powers."
- Feats cannot be assigned to Galactus.
- Damage carries over from one combat dial to another. In a battle against Hungry Galactus, for example, if there is 1 click left on the Hungry combat dial, and Galactus takes 2 damage, the "extra" 1 damage is applied to the Starving combat dial.
- Galactus ignores the Skrulls and Danger Girl team abilities.
- When Galactus uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to the number of dials he started with, overriding all other restrictions on this number.
- When Galactus moves, all parts of his base are considered to be in clear, grounded terrain.
- Galactus must end his movement so that all squares he occupies are squares to which he could have legally moved as part of the movement.

Galactus (Coming of Galactus)

Part of a Force Rules

- Where their powers overlap, the clarifications for Galactus apply to COG Galactus.

Jean Grey Phoenix

- Replace the first bullet point under Special Rules with: "are not affected by Exploit Weakness, Force Blast, Incapacitate, Mind Control, Plasticity, Poison, Psychic Blast, Shape Change, Steal Energy, Support, or any team abilities that duplicate these powers;"

Sentinel

- The Sentinel with an Infinity Challenge set symbol should use the Advanced Sentinel Rules.

Spectre

- When Spectre uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to

the number of dials he started with, overriding all other restrictions on this number.

Starro

- When Starro uses Pulse Wave against multiple targets, the damage dealt per hit is equal to the experience level he started with, overriding all other restrictions on this number.

Section 5: Team Abilities

General

- Any DC or Indy team abilities that refer to a “team member” actually refer to “a character using this team ability.”

AVENGERS

Clarifications: *see Free Moves*

BATMAN ENEMY

Clarifications: *see Sinister Syndicate.*

- This team ability reads: “Before the attack roll of any attack made by a character using the Batman Enemy team ability, the character can replace its attack value with the unmodified attack value (including a replacement attack value) of any adjacent friendly character possessing the Batman Enemy team ability.”

BROTHERHOOD OF MUTANTS

Clarifications: *see Free Moves*

CRIME SYNDICATE

- The character using this team ability is subject to all the standard rules regarding Probability Control with the additional requirement of placing a token on a character in order to use the ability.
- The token may be assigned to any character with less than 2 tokens unless the character will receive a token as a result of the current action.
- Applying a second token to a character would deal normal pushing damage to that character at the end of the action.

DEFENDERS

- The Defenders team ability works in the same manner as the “Defend” power, except that it can only be used with other Defenders team members.
- A wildcard character can use this ability to receive a value from a character with the Defenders team symbol but cannot pass their defense on with this ability.
- This team ability can be used during Support.

Free Moves

- When a character with this team ability is given a move action, that action does not get subtracted from the players action pool for that turn. The acting character is still assigned a token and would be dealt pushing damage as normal, if this is not their first token.
- The move action assigned to the character can be used for any effect that requires a move action. Moving, the Move and Attack ability, and Leap/Climb are all examples of things that use a move action for which this team ability would apply.
- This team ability does not alter what kinds of actions can be assigned to the character. If it has been carried this turn, you could not assign it a move action, as it is “free”. It is not a free action, it is an action which is free from the perspective of your action pool (the number of actions you can assign on a turn).

- If a character with this team ability is given a move action that requires break away, it may still use this ability. On a failed break away roll, it would still get a token and the action will not come from the action pool.

GREEN LANTERN CORPS

- This team ability reads: “A Green Lantern Corps team member can carry up to eight friendly characters instead of one when it uses the Carry ability.”
- This team ability does not grant the character the ability to carry other characters, it alters how many characters they may carry assuming they have the ability to do so.
- This team ability does not alter the rules about which characters may be carried. For example, it would not allow a character to carry a Giant or another flier.

GUARDIANS OF THE GLOBE

- If doubles are rolled for a no damage attack (such as Mind Control), a token would still be given to the target(s).
- If a character using this team ability rolls doubles while using Incapacitate, then the target character will get 2 tokens if they currently have 0.
- If a character using this team ability rolls doubles while using Quake, the target characters would not be knocked back, but would receive a token instead.
- If a character with this team ability rolls doubles while using Energy Explosion, the characters targeted would receive a token while character who are affected by splash damage would be knocked back normally.
- If a character with this team ability rolls doubles while using Pulse Wave, knock back would apply normally, as there are no targets in a Pulse Wave.
- If a target character would normally ignore knock back, they would still receive a token as a result of this team ability.

HYDRA

- If a character makes a ranged attack against multiple targets and the adjacent Hydra team member can only draw a line of fire to one of the targets, then the +1 bonus would only apply against the target the Hydra member can draw a line of fire to.

HYPERTIME

- A character with either the Kingdom Come symbol or the Hypertime symbol would not need to roll when basing a character with either symbol.
- A character using this team ability, but does not have one of the team symbol (e.g., a wild card copying the team ability or a feat card allowing you to use a team ability) would still need to roll when becoming adjacent to a character using this team ability.
- If a character fails its roll while trying to become adjacent to the Hypertime team member, it may continue its move from the current position. If there are no legal squares in which the character that failed its roll against the Hypertime team ability may move, the character must end

its movement in the first available legal square along the path it took when moving adjacent to the Hypertime team member, even if that square is the square in which the character began its movement.

- This team ability only applies when a character goes from not being adjacent to a Hypertime character to becoming adjacent to a Hypertime character. If one is adjacent to a Hypertime character at the beginning of an action, for example, and rolls successfully for break away, then a Hypertime roll would not be necessary if the character moves and maintains adjacency to that Hypertime character.

JUSTICE LEAGUE

Clarifications: *see Free Moves*

JUSTICE SOCIETY

Clarifications: *see Defenders*

- This team ability reads: “Before any attack roll, a character using the Justice Society team ability can for the attack replace its defense value with the unmodified defense value (including a replacement defense value) of any adjacent friendly character possessing the Justice Society team ability.”

MASTERS OF EVIL

- The damage applied to a character with this team ability on the third turn it acts is not pushing damage. Willpower (or other effects that allow a character to ignore pushing damage) would not apply to the unavoidable damage this team ability generates.
- The second action a character with this team ability takes is normal pushing damage, for which Willpower and other similar effects would work fine.

MYSTICS

- This team ability causes damage to be taken. Damage taken cannot be reduced by damage reducers (those work on damage dealt).
- As the damage from this team ability is not an attack, it would not cause retaliation damage if it were applied to another Mystics character.
- This team ability would still activate as the character is KO’d.
- If a Mystics character somehow deals damages to itself in an attack and does not cancel this ability, it will still activate and damage itself.

POLICE

Clarifications: *see Hydra*

POWER COSMIC

- Powers that allow you to ignore other powers would still be effective against a character using this team ability. Exploit Weakness, for example, does not counter damage reducing powers, but ignores them, so it would still work against a character with this team ability.

QUINTESSENCE

Clarifications: *see Power Cosmic.*

S.H.I.E.L.D.

- Multiple S.H.I.E.L.D. characters can be used to provide multiple bonuses to a single friendly character. These bonuses are always subject to the Rule of Three.
- The action token is assigned to the S.H.I.E.L.D. characters (for power actions) when they use this team ability regardless as to whether the attack was successful or not.
- The S.H.I.E.L.D. character does not have to have a line of fire to the target in order to use this ability.
- The S.H.I.E.L.D. character’s action is to be declared with the announcing of the action that includes the ranged combat attack.

SINISTER SYNDICATE

- The Sinister Syndicate team ability works in the same manner as the “Defend” power, except that it can only be used with other Sinister Syndicate team members and it applies to attack value rather than defense value.
- This team ability can be used during Support.

SKRULLS

- Other than the roll that is required, this team ability works the same as Shape Change.

SUPERMAN ENEMY

- The second sentence should read: “If that character already possesses Outwit, then this team ability has no effect.”
- This power can be used for each set of adjacent Superman Enemy characters. For example, if you have three Superman Enemy characters all adjacent to one another, with point values 75, 60, and 44, there are three potential pairs: 1) 75/60, 2) 75/44, and 3) 60/44. 75 is higher than 60, so 75 gets to use Outwit. 75 is higher than 44, but 75 already can use Outwit—it cannot use it again. 60 is higher than 44, so 60 can use Outwit.

TITANS

Clarifications: *see X-Men*

- This team ability reads: “At the beginning of an action during which two friendly characters using the Titans team ability are adjacent to each other, you can choose one of the characters, give it a power action, and roll a d6. Heal the other adjacent, friendly character of 1 damage, and on a result of 1-4, deal the character given the power action 1 unavoidable damage.”

ULTIMATE X-MEN

- Each team member chooses an opposing team or character. This choice is made on a character by character basis, and may be different from other members of the team.
- If a wild card uses this team ability, they may select their own target team/figure for the bonus. Once the choice is made, the wild card may not change that selection even if they use a different team ability.
- Designating a single character for this team ability grants the bonus only against that single character, even if more than one of that character is in play.

Wild Cards

- If the last character on a force possessing a team ability is KO'd, any wild card characters that are currently using the team ability can continue to use it until the end of that action. With the start of the next action, that team ability is not able to be used.
- A wild card can only use a team ability that is possessed by a friendly character on their force. It cannot use a team ability that another character is able to use (but does not possess).
- When using another team ability, a wild card team member is considered part of that team for team ability purposes; for everything else, it is a member of the team printed on its base.
- The rule regarding using only one team ability per action refers only to the usage of the wild card team ability. If a character is a wild card and also is a member of another team, it can essentially use 2 team abilities as it can use its natural team ability as well as its wild card team ability.
- When a feat card is used that grants the possessing team members to use a different team ability, the wild card may not use the ability granted by the feat – they can only copy the team ability that is available without the feat.
- The “different action” that the wild card retains as its newly selected team ability for referred to on page 19 can be given to any character on the acting team. Whichever character makes the follow-up action, the wild card will continue to use the selected team ability.

X-MEN

- In order for a character to use the X-Men team ability, the adjacent character must be able to be healed.

Section 6: Battlefield Conditions

General

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be different from a legal WizKids-released version of the element.
- Battlefield condition cards are considered “unique by name”. If battlefield condition cards with the same name appear in multiple sets, a player may only use one copy of any named card in his battlefield condition hand during a tournament.
- Any Battlefield Condition cards that are published with the same name as a previous one override all of the text on the previously published card.

ALPHA STRIKE

- The text of this card reads: “Before the beginning of each player’s first turn, that player chooses a team symbol possessed by an opposing character. The first opposing character with that team symbol that is defeated is worth additional victory points equal to half of that character’s point value.”
- If multiple characters with the chosen team symbol are KOd as the result of a single action, arch enemy points are awarded for all characters KOd by the action that have the chosen team symbol.

ATLANTIS RISING

- If Atlantis Rising and Astral Plane are both played, players should roll off with the higher die roll being the BFC that will take effect (this is independent of the Initiative roll).
- Clear terrain does not become water terrain until the beginning of the first round. Objects can therefore be placed in clear grounded terrain, as it is not yet water terrain.

DAMAGE CONTROL

- Replace the last sentence on the card with: “At the beginning of each player’s turn, all destroyed walls and blocking terrain (except Barrier markers and terrain in occupied squares) are no longer destroyed.”
- Debris tokens from destroyed walls and blocking terrain are not removed at the beginning of each player’s turn.
- The restoration of walls and blocking terrain is something that happens once per turn, it is not an ongoing affect. If Wasteland was also in play, its effects are constant. Therefore, at the start of each turn, all of the destroyed walls and terrain would be repaired (from this BFC) and then they would immediately be destroyed (from the Wasteland BFC). The other effects of these BFCs would occur normally.

DEEP SHADOWS

- If a character were to use Pulse Wave under the effects of this BFC and their natural range is greater than 6, their range would be 6 for the attack. When the range is halved for the Pulse Wave attack, it would then be 3.

DE-FEATED

- All feats owned by that player are ignored when a 1 is rolled, even if the feat is not strictly tied to a single character (such as Rip It Up).

INFILTRATION

- Characters placed outside the starting area are still protected under the First Round Immunity rule.

KRAKOA THE LIVING ISLAND

- The attack made because of Krakoa is a close combat attack. Combat Reflexes or the like would apply.
- Characters with Shape Change may use that power to cause the attack to not be able to be made. A different qualifying character can be selected as the target of the attack.
- Probability Control cannot be used on this roll as there is no character making the attack.

LOYALTY

- Wild card characters retain their chosen team ability even if the character with that team ability is KOd.
- Wild card characters would choose their team ability regardless to any feats (like Siphon Power, Saboteur, alternate team abilities) assigned to either team before the game begins. They would retain that team ability for the game.

PACIFICATION

- In order to be reduced, the 4 or more damage must be dealt to a single character.
- This BFC would activate any time the damage dealt reaches 4 (or more), even if another effect (like Toughness) would reduce it below 4 later.

SHRUNK

- Any power or effect that indicates it functions based on a certain number of squares is also considered to have a range for purposes of this BFC.
- If Shrunk is in play with Deep Shadows, the range would first be halved by Shrunk and the limited by deep Shadows.

SKYSCRAPERS

- If this is in play and the indoors Legion of Super Heroes Starter Map is used, the 4 starting areas are considered clear grounded terrain for the game.

[This page is intentionally left blank]

Section 7: Feats

General Clarifications

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be different from a legal WizKids-released version of the element.
- While the points for feat add to the overall force build total, they do not add to a character's build total.
- Alternate Team Abilities (like Thunderbolts or The Society) must be used and costed for all team members on your force. These feats are not optional (that is, they cannot be canceled to gain access to the original team ability. The use of the team ability is optional).
- Wildcards cannot use team abilities granted through feat cards. When copying a team ability, unless specified otherwise, they use the team ability from the Powers and Abilities card.
- ~~Proxies of feats cannot be used. This means you cannot use a print out of a feat and also means that you need one copy of the feat card for each time it is being used on your force. It also means that a feat from a retired set cannot be used in the restricted environment, even if the same exact feat has been reprinted.~~
- A copy of each feat card that requires you to choose a character must be included on your force.
- When a character is removed from the battlefield and placed on a feat card, they are not affected by battlefield condition cards.
- Any Feat cards that are published with the same name as a previous one override all of the text on the previously published card.
- Special powers and traits that allow a character to use standard powers also allow the character to meet the prerequisite of a feat. If the special power or trait is conditional (e.g., can only use the power while in water terrain) then the prerequisite is only met when the condition is met also.

ALIAS

- The feat is considered "used" as soon as the character has rolled for Shape Change. If a player opts to use the feat, but other game effects occur such that the character is not targeted prior to rolling for Alias (e.g., the Skrulls team ability) then the feat is not considered used and is not discarded.

BRILLIANT TACTICIAN

- When affecting friendly characters with Brilliant Tactician, different combat values may be modified per each character affected.
- Wild card characters cannot use the Brilliant Tactician's team ability in order to qualify for the extra perplexing. They must share either the team symbol or a keyword.
- Any character that the Brilliant Tactician can draw a line of fire to can be the initial target of Perplex. The team symbol/keyword requirement is only for characters perplexed after that.

- Perplex can only be used once on each character by the Brilliant Tactician. A target cannot be chosen for the initial perplex as well as the follow up perplex (if the team symbol or keyword was shared)

CAMOUFLAGE

- A character against the edge of elevated terrain (a building) does not gain the benefits from Camouflage, as elevated terrain is not blocking terrain or a wall. In order for Camouflage to work, the character would also need to be adjacent to blocking terrain or a wall.
- A character using this feat would still have lines of fire to it blocked when targeted by a character that is ignoring terrain or other characters for line of fire purposes.

COMPEL

- The figure that is the target of the mind control must have taken a tokenable action this turn in order for it to be a target. Free actions would not qualify.
- A character with multiple targets cannot target any opposing figures when attempting to Compel a friendly figure. It may only target a single friendly character.

CONSTRUCT

- Any opposing character adjacent to the Barrier needs to roll a break away if it is moving or being moved away from the Barrier.
- Only characters that are being given an action that involves movement are given action tokens. Characters that are adjacent to the Barrier and are being moved without being given an action (such as being carried, moved with Telekinesis, etc.) are not given an action token for making the break away roll.

CONTINGENCY PLAN

- When tokens are removed from this feat, only one combat value can be modified for the tokens removed.

COORDINATION

- This feat is not optional.

DISASSEMBLE

- The last sentence reads: "...you may remove one of the target objects from the game after the action is resolved and replace it...".

DISSENT

- If a team ability is outwitted, any wild cards that were using the team ability from the affected character may no longer use copied team ability.

ENDURANCE

- Modify the second sentence in the main paragraph to say "If there are endurance tokens on this card when the character is given a non-free action, after the action resolves, roll a d6."
- One endurance token is placed on the card for each pushing damage dealt to the character.

- There are many feats that deal pushing damage as a cost for using it – Endurance can be used to prevent that damage as well – one token is placed on the card for each pushing damage dealt.
- Once tokens are on this feat, it may not be canceled.
- If the character loses the prerequisites for this card while tokens are on the card, the character no longer needs to roll for potential damage, though the tokens are not removed.

ENTRENCH

- A character ignoring a critical hit would not automatically succeed with the attack, would not add 1 to the damage dealt and, if the Critical Strike BFC was in play, would not have the option of using the tokens on the card.

GREEN LANTERN CORPS

- The first sentence of the feat card should begin “All characters with the Green Lantern Corps team ability...”.

IMPROVISE

- A roll of double ones would no longer be considered a critical miss. It would automatically hit the target and the attacking character would not take one damage.

INFILTRATE

- Characters using this feat would not need to roll break away when they begin to move.

INVIGORATE

- The last sentence reads “Characters that have action tokens removed from them can’t be given power actions the same turn this feat is used.” This means that a character given a power action already cannot have its token removed. It also means that a character with a token removed cannot then be given a power action.

LUNGE

- To use this feat: (1) Announce the action the character will take, even if it is not a legal action from its current position, as long as it can **be adjacent to an opposing character include a close combat attack** for step 3. (2) **Reposition Move** the character from its current square to another square up to 2 squares away. (3) Perform the close combat attack.
- **The word “immediately” appears before the phrase “before it makes a close combat attack”.**
- **The 2 squares of movement is a limitation, not a requirement or an ability to move more than what the character might normally be able to move.**

MANEUVER

- This feat begins “When the character makes a close combat attack against a single target opposing character.”
- The prerequisites for this power indicate that the assigned character must at some point on their dial have either the boot speed symbol, the power Combat Reflexes, or the power Close Combat Expert. Any one of the 3 would suffice.
- Knock back takes place during the attack. Therefore, a character knocked back by this attack would be knocked

back first, possibly dealt damage from knock back, and then repositioned via Maneuver.

MENTAL SHIELDS

- If a character with this feat can target multiple characters, they can choose to not use the feat and try to Mind Control the multiple characters. When this is done, all effects of the feat – including the prevention of feedback damage – are not being used.

MERCENARY

- Ignore the last (repeated) sentence on the card.
- The Mercenary must be adjacent to a character that possesses the team ability – it is not enough for the Mercenary to be adjacent to a character using the team ability, like a Wildcard.
- In order to use the team ability, the Mercenary must begin its action adjacent to the higher point character.
- If a character has a special power that allows them to possess a team ability, they can count toward the number of characters on the team when determining the cost of Mercenary.
- The cost of the card must be selected as a part of building your force. Once a cost has been selected, you must choose a team that meets that point value – you cannot choose a team that is over or under the point value. If a player wants complete flexibility to choose any team ability on their team, they can choose to pay the full 25 points for the card. For example, a team with a non-TA character, one Batman Ally, one Superman Ally, and 2 Mystics, you can choose to put Mercenary on the non-TA character as
 - A 15 point cost – this would require that when you declared the Mercenary’s team ability at the start of the game, you would have to select Mystics as that is the only team available for that cost.
 - A 20 point cost – this would require that when you declared the Mercenary’s team ability at the start of the game, you could select either Batman Ally or Superman Ally – you would not be able to select Mystics
 - A 25 point cost – this would allow you to choose any of the three team abilities at the start of the game, but you would not get any point bonus for having members of the team on your force.

MONSTER HUNTER

- For the attack value, the +1 would only apply to the characters meeting the feat’s requirements. For the damage value, if the qualifying character is hit, one damage can be dealt to any of the hit targets that qualify before assigning any of the “natural” damage from the attacking character.

NANOARMOR

- The damage dealt to a character when an object “explodes” from Proximity Mines is not from an object and cannot be ignored by NanoArmor.
- The damage dealt from Laser Turret or Broken Drone is considered from an object and would be ignored.

- If hit with the Light Post, although the character would ignore the damage dealt, it would still be subject to the Incapacitate effect.
- If hit with a Meteorite, this character would ignore the increase to the damage value that the object supplied, however the remaining damage dealt would still become damage taken without further modification.

OPPORTUNIST

- Using tokens from this card does not change the nature of the roll. Double ones is still a critical miss. You need to roll double sixes in order to get a critical hit (making the roll 12 does not make it so). Knock back occurs if the roll is doubles, even if you need to use Opportunist tokens to make the attack hit.

OUTSMART

- If multiple characters are targeted in a single occurrence of countering, 2d6 would be rolled by each player for each character that is affected.

POUNCE

- If a character is adjacent to an opposing character, it must roll break away in order to Pounce.
- Objects cannot be picked up during a Pounce if the character's damage value will increase above 2.
- If a character is carrying an object and its damage value will be more than 2, it no longer meets the prerequisites of this feat.
- Pounce requires you give the character a power action to make a close combat attack. You may therefore not use Leap/Climb during this action (which has one effect that is relevant for move actions and another effect that is relevant for close combat actions).
- Powers that require close combat actions – like Blades/Claws/Fangs – cannot be used with Pounce (which only grants a close combat attack)

PROTECTED

- Protected can be used to prevent the damage of a single action which results in an attack. It can be used against a successful hit from Flurry or Multiattack, but would then not be able to be used against the follow up attack (assuming that attack was successful as well).
- Protected and Impervious both function against damage dealt. They can be used in either order.
- If the damage dealt to the Protected character comes via Mastermind, Protected cannot be used to ignore the damage as it is not the result of an action.

PYM PARTICLES

- This feat is non-optional.

REPULSOR

- This feat does not have any effect on characters immune from knock back.

SIDESTEP

- The 4 squares of movement is a limitation, not a requirement or an ability to move more than what the character might normally be able to move.

SKULLDUGGERY

- In order for a roll to be made for a possible token, there must be a target opposing character being dealt damage. If the damage is dealt from an untargeted attack (Pulse Wave, Poison, etc.) then the roll would not take place.
- The damage dealt to the target opposing character is the final damage dealt after all modifiers have been considered, including critical hits and damage reducing powers.

TACTICS

- A roll of 3 would grant one action that must be used by a character with the same team symbol.
- A roll of 4-6 will grant two actions, one provided by Leadership and one provided by Tactics that can only be used by a friendly character that shares the same team symbol as the character with Tactics.
- If a force contains multiple characters with Leadership assigned multiple Tactics feat cards, the force may gain the extra action for the team ability provided by the feat for each copy of the feat in play.

THWART

- A card is considered "assigned" if the character is (a) the character chosen for the "choose a character" feats or (b) it meets the prerequisites of a feat that is not "choose a character"
- When a power action is given to remove a thwart token, the feat will only return after the power action has completed.
- Once a feat has a Thwart token, the only way to remove that token is to (a) give a qualifying character a power action to remove it or (b) use Thwart against the character who caused the Thwart token to be placed (placing a Thwart token on their Thwart card). If the original Thwarter is KO'd or loses the prerequisites for this feat, then the Thwart token(s) remain on the target cards.
- If an alternate team ability (such as Legionnaires) gets a Thwart token, all of the affected characters would have their natural team ability while the feat is thwarted.
- A player can choose the Thwart their own feats.
- If a feat with a Thwart token has tokens on it from its normal affect, like with Endurance, those tokens would remain on the card while the Thwart token is on the card (and remains on it when the character takes a power action to remove the Thwart token).

TOXIC BURST

- Characters choosing to use Toxic Burst must be able to draw a line of fire to each character. Stealth and team abilities that duplicate the effects of Stealth affect line of fire normally, even if adjacent to the character using Toxic Burst.
- Toxic Burst does not give the character a "Range of 2". Adjacency still requires figures to be at the same elevation.

WARBOUND

- Once a character has been given a non-free action, they cannot be given another non-free action on the same turn, even though the token was placed on someone else. Similarly, a character who has received an action token

through Warbound can still be given a non-free action the same turn.

- Adjacency is required for the 2 characters when the action is given. If the characters are not adjacent at the end of the action, the token may still be assigned to the qualifying character.

Section 8: Objects

General

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be different from a legal WizKids-released version of the element. This policy does not apply to 3D elements, though it does apply to the card that accompanies it.
- Restricted 3D objects are legal for constructed events unless otherwise specified by the Judge running the event.
- 3D objects are not legal for sealed events unless otherwise specified by the Judge running the event.
- The 3D objects from the Adventure Kits (Bookcase, Computer, Crate, Dumpster, Light Post, Mailbox, Office Desk, and Soda Machine) have the special object “gear” symbol and the keyword “continual”.
- It is possible for multiple objects to exist in the same square. When this happens, each object is treated individually.
- Blocking terrain, walls, or character bases do not block the area of effect of a Special Object but will block the line of fire to and from a Special Object per the standard line of fire rules.

DYNAMOSTAT

- Dynamostat’s effect is “This object acts as blocking terrain for movement and line of fire purposes.”

FORCE FIELD GENERATOR

- Once the character has used Barrier as a result of this object, adjacency to the object is no longer required in order for the Barrier tokens to remain. Only destroying the object, the terrain or the beginning of the player’s turn will cause the Barrier tokens to be removed from play.

KINETIC ACCELERATOR

- If a character is given an action that would require them to replace their speed value (e.g., Charge or Running Shot) while they occupy the same square as the Kinetic Accelerator, both replacements occur at the same time and therefore the active player can choose which effect goes first. If the roll makes it so that the given action cannot be performed, the character is assigned a token for the action and not moved.

METEORITE

- Meteorite is subject to the Rule of 3. A die roll of 6 will add 3 (and not 4) to the attacker’s unmodified damage value due to the Rule of 3.
- Due to the last line of the text, powers, abilities, or other effects that reduce damage dealt cannot be used to reduce the damage dealt by Meteorite. Likewise, a critical hit will not increase the damage dealt.
- Feats that are based on the damage value of an object (like Large Object) or have a damage value prerequisite (like Pounce) cannot be used when a character is carrying Meteorite.

MJOLNIR

- The phrase “place it on that character’s card.” is simply indicating that the object is taken off the map and placed somewhere to indicate that this is the character that has it. Players can use any acceptable method to simulate this when using a character without a character card.
- The silver version of this 3D object is not a special object – it is a standard heavy object.

TELEPHONE BOOTH

- This special object should read “Once per turn, a character occupying the same square as this object can be dealt 1 unavoidable damage as a free action.”

Section 9: Maps

General

Orange Squares

- Orange squares are clear terrain unless anything in the special rules for that map and/or other effects change them. Placing an object in an orange square (assuming the rules for that map permit it) would make the square act as hindering, but would not remove the properties the special rules for the map provide for it.

Tournament Legality

- Official HeroClix maps without the modern color designations are retired. Official HeroClix maps with the modern color designations are never retired.

Specific Maps

DC Collateral Damage Map – “The Junkyard”

- There is no wall between squares D12-13 and E12-13.
- Entrance to the indoor section of the map can be gained by the stairs (at E8, E11, E17, & C22), ramp (at B3 & C3), and conveyer belt (E12 & E13).
- The elevated terrain surrounding the “car crusher” (squares M12-P12 & M13-P13) does not block the line of fire from colossal to those squares.

DC Legion of Super Heroes Map – “Central Port”

- In order to use the transmitter gates to teleport, the character given the action must end its action (including placing the token and taking push damage) occupying a square with a gate and may then be placed in a different gate.
- Only the character given the action may use the gate. Carrying another figure and placing them on the gate does not allow them to be placed in a square of a different gate.
- In the case of a character being targeted by Mind Control, its free action must be resolved before the Mind Controlling character can elect to use the gate (if that character has ended its move or power action in a square

with a gate). The Mind Controller itself would only be able to use a gate when the entire Mind Control action ends.

- The last line of the map instructions says “it may be placed in the square of any unoccupied transmitter gate on the map.”

Marvel Sinister Map – “The Prison”

- Squares F1-F2 and F23-F24 are blocking terrain.

Marvel Supernova Map – “Deep Space”

- Space terrain is considered an alternate terrain type similar to Outdoor and Indoor terrain. Characters in these squares obey the special rules of the terrain regardless to how they can otherwise interact with terrain.
- The range value for a character using Hypersonic Speed is one quarter (halved per the description of the power and halved again for space terrain).
- The ranges for Outwit, Perplex, Probability Control, Telekinesis, etc are not affected by space terrain as they do not rely on the character’s range value.
- The “half range” only applies to characters or their targets that are in space terrain. If the line of fire crosses space terrain but neither character is occupying space terrain, the range is not halved.

Marvel Fantastic Four Starter Set– Indoor, “Latveria”

- There is a wall between squares M15 and M16.
- There is a wall between squares N15 and N16.
- There is a wall between squares P14 and P15.
- There is a wall between squares O15 and P15.
- There is a wall between squares O15 and O16.
- There is a wall between squares O16 and P16.
- There is a wall between squares O17 and P17.
- There is a wall between squares O18 and P18.

Section 10: Powers and Abilities

Barrier

Give this character a power action; put up to four blocking terrain markers on the battlefield in any square of clear terrain that is not occupied by a character and is within this character's range. Each blocking terrain marker must be put adjacent to another barrier terrain marker created by this character. If this character has a range of 0, it can put the markers only in adjacent squares. This character must have a clear line of fire to at least one of the blocking terrain markers. These blocking terrain markers remain until the beginning of your next turn or until this power is countered or lost.

Battle Fury

(Non-Optional) This character can't make ranged combat attacks, can't be targeted by Mind Control or Possession, and can't be carried.

Blades/Claws/Fangs

When this character is given a close combat action, roll a d6 after making a successful attack roll. The result replaces this character's damage value when resolving the attack. If the target was blocking terrain, a wall, or an object, it is destroyed on a result of 3–6.

Charge

Give this character a power action; halve its speed value for the action. Move this character up to its replacement speed value and then give it one close combat action as a free action. A character with this power ignores knock back.

Close Combat Expert

Give this character a power action. It makes a close combat attack against a single opposing target character; modify this character's damage value by +2 for the attack. This power can't be used when using an object as a weapon.

Combat Reflexes

Modify this character's defense value by +2 against close combat attacks. This character may choose to be knocked back by any attack from which it takes damage. Knock back damage dealt to this character is reduced to 0.

Defend

Before any attack roll, any friendly adjacent character can replace its defense value with this character's unmodified defense value (including a replacement defense value) for the duration of the attack.

Earthbound/Neutralized

This character possesses standard speed (🏃), attack (👊), defense (🛡️), and damage (💥) combat abilities and symbols instead of its combat abilities and symbols. This power can't be countered.

Energy Explosion

Give this character a ranged combat action; this attack can target only characters. Compare the result of the attack roll

to the defense value of each character adjacent to a target of the attack to determine if the attack also succeeds against it. Each character successfully hit is dealt damage equal to the number of times it was hit by this attack (characters adjacent to multiple targets might be hit more than once by this attack). A critical hit with this attack automatically hits the target(s) and any characters adjacent to the target(s), and deals 1 additional damage to all characters hit. If a character successfully evades, it evades all hits by this attack.

Energy Shield/Deflection

(Non-Optional) Modify this character's defense value by +2 against ranged combat attacks.

Enhancement

When an adjacent friendly character makes a ranged combat attack, this character modifies the adjacent friendly character's damage value by +1 once for the attack. More than one character with Enhancement can modify the same attack. This character can use this power more than once per turn.

Exploit Weakness

Give this character a close combat action. Damage from the attack is penetrating damage.

Flurry

Give this character a close combat action. It makes two separate close combat attacks as free actions (making two separate attack rolls) against one or two adjacent targets. Resolve the first attack before making the second. If this character loses Flurry before it makes the second attack, it can't make the second attack.

Force Blast

Give this character a power action and roll a d6; a single target adjacent opposing character is knocked back from this character a number of squares equal to the result. The target automatically breaks away, and can move through squares adjacent to opposing characters. The target can be dealt knock back damage.

Hypersonic Speed

Give this character a power action. It automatically breaks away and can move through squares adjacent to opposing characters. During its move, this character can as a free action make one close combat or ranged combat attack with its range value halved for the attack. This character must be in a square where it could legally end its move in order to make the attack. This character can continue to use the rest of its movement after making the attack.

Impervious

(Non-Optional) When this character is dealt damage, roll a d6. On a result of 5 or 6, the damage dealt is reduced to 0. On a result of 1–4, the damage dealt is reduced by 2.

Incapacitate

Give this character a close combat or ranged combat action; its damage value becomes 0 until the action has been resolved. If the attack succeeds against a target that has zero or one action token, give the target an action token.

Invulnerability

(Non-Optional) Damage dealt to this character is reduced by 2.

Leadership

Once at the beginning of your turn, as a free action roll a d6. On a result of 4–6, add one action to your action total for that turn. A player can gain only one action each turn with this power, even if the player has more than one character with Leadership.

Leap/Climb

When you give this character a move action, it automatically breaks away and ignores the effects of characters, hindering terrain, elevated terrain, and outdoor blocking terrain on movement (but it can't end its movement on blocking terrain). When you give this character a close combat action, it can target a character regardless of the target's elevation.

Mastermind

Each time this character would be dealt damage, you may instead choose to have all the damage be dealt to a single adjacent friendly character with a point value less than this character's. If the damage resulted from an attack with knock back, the character that takes the damage is knocked back. If a character is defeated by damage dealt using this power, it is considered to have been defeated by the character that originally dealt the damage. Damage dealt by this power is not an attack.

Mind Control

Give this character a power action; it makes a close combat or ranged combat attack as a free action. A successful attack deals no damage; instead, the target becomes friendly to your force and opposing to your opponent's force, and any of the target's canceled powers return until it returns to its owner's force. Each target hit can be assigned one action as a free action. Immediately after resolving this action, the target becomes an opposing character to you and friendly to its owner's force. This character takes 1 damage for each 100 points of the successfully hit targets' combined point value. If this character has a range value of 0, its range value is 4 for purposes of this power and can't be further modified.

Outwit

Once during your turn (but not during another action), as a free action this character counters a power or an ability (other than a team ability) possessed by a single target opposing character. Treat the target as if it does not have the countered power or ability, which remains countered until the beginning of your next turn. A character using this power must be within 10 squares of the target and have a clear line of fire to the target. If this character loses Outwit or is defeated, the countered power or ability returns immediately.

Perplex

Once during your turn (but not during another action), as a free action this character modifies by +1 or –1 any combat value (including range) of a target character until the beginning of your next turn (it can target itself). A character using this power must be within 10 squares of the target and have a clear line of fire to the target. This effect ends immediately if this character loses Perplex or is defeated, or when the target is damaged or healed.

Phasing/Teleport

Give this character a power action and move it up to its speed value. It automatically breaks away and ignores the effects of characters, hindering terrain, elevated terrain, and blocking terrain on movement (but it can't end its movement on blocking terrain).

Plasticity

This character can break away on break away results of 2–6. Opposing characters must roll a 6 to break away from this character. Adjacent opposing characters that can use Plasticity ignore the effects of each other's Plasticity.

Poison

Once at the beginning of your turn, as a free action this character deals 1 damage to each opposing adjacent character.

Probability Control

Once during your turn, this character allows you to reroll one of your dice (or die) rolls and to ignore the result of the original roll. All dice used in the original roll must be rerolled. A character using this power must be within 10 squares of the character for which the original roll was made, and have a clear line of fire to that character. A character can use this power on itself. Using the same rules, once per round during an opponent's turn, this character allows you to force that opponent to reroll one of his or her dice (or die) rolls and to ignore the result of the original roll.

Psychic Blast

Give this character a ranged combat action. Damage from the attack is penetrating damage.

Pulse Wave

Give this character a ranged combat action; halve its range value until the action has been resolved. All powers, traits and team abilities possessed or used by characters within range of this attack as well as feats assigned to them are ignored until the action has been resolved, though wild cards using this power can use the team ability of a friendly character within range of this attack. At least one opposing character must be within range of this attack to activate this power. Draw lines of fire to every character (friendly and opposing) within range in every direction; these lines of fire ignore characters, but are affected normally by terrain. If clear lines of fire can be drawn to two or more characters, this character's damage value becomes 1 until the action has been resolved. Make a single attack roll and compare the result to the defense value of each character in range; each

character hit is dealt damage. Attacks made with this power do not target characters.

Quake

Give this character a close combat action; until the attack has been resolved, this character's damage value becomes 2 if it is greater than 2. Make a single attack roll and compare the result to the defense values of all opposing adjacent characters. Each character that takes damage from this attack is knocked back.

Ranged Combat Expert

Give this character a power action. It makes a ranged combat attack against a single target character; modify its damage value by +2 for the attack. This power can't be used when using an object as a weapon.

Regeneration

Give this character a power action. Roll one d6 and subtract 2 from the result, minimum result 0. Heal this character of damage equal to the result.

Running Shot

Give this character a power action; halve its speed value for the action. Move this character up to its replacement speed value and give it a ranged combat action as a free action. This character must be able to make a valid ranged combat action from the square where it ends its move in order to use this power.

Shape Change

(Non-Optional) When this character is chosen as the target of an attack, roll one d6. On a result of 5 or 6, the attack can't be made. If the action becomes illegal, the attacker must choose another legal action to perform, if possible. The selected action must be free of non-free based on what the action type was given to it that led to the attack.

Smoke Cloud

Give this character a power action; put up to four hindering terrain markers on the battlefield within this character's range. Each hindering terrain marker must be put adjacent to another hindering terrain marker created by this character. If this character has a range of 0, it can put the markers only in the square it occupies and/or in adjacent squares. This character must have a clear line of fire to at least one of the hindering terrain markers. These markers can't be put on blocking terrain but can be put in hindering terrain or in squares occupied by characters. These terrain markers remain until the beginning of your next turn or until this power is countered or lost.

Steal Energy

(Non-Optional) Each time an opposing character takes damage from a close combat attack made by this character, heal this character of 1 damage.

Stealth

Any line of fire drawn to this character that crosses hindering terrain, including a square of hindering terrain occupied by this character, is blocked.

Super Senses

When this character is hit by an attack, roll a d6 before damage is dealt. On a result of 5 or 6, this character evades the attack.

Super Strength

When this character moves as part of a move action, power action, or free action, it can pick up an object as a free action and carry it. The object must be either in a square the character occupies or in an adjacent square. This character can use an object it picks up as a weapon. If this power is lost or countered while this character is holding an object, immediately put the object in the square this character occupies. This power can't be canceled while this character is carrying an object. When this character makes a close combat attack targeting blocking terrain, a wall, or an object, modify its damage value by +2 for the attack; if the character is carrying an object when it makes the attack, remove the object from the game after the attack is resolved.

Support

Give this character a power action and make an attack roll against an adjacent target friendly character as though making a close combat attack. When using this power, neither this character nor the target can be adjacent to an opposing character; ignore all combat value modifiers for this attack. If the attack roll succeeds, roll a d6 and subtract 2 from the result, minimum result 1. The target is healed of damage equal to the result.

Telekinesis

Give this character a power action and choose one of the following options. (For all options, this character must have a clear line of fire to the target and must be 8 or fewer squares away. For options 1 and 2, the target ignores the effects of elevated and hindering terrain on movement.) (1) Move an Opposing Character: This character makes one close combat or ranged combat attack against a single target that deals no damage. If the attack succeeds and the target has or possesses the $\frac{1}{2}$ damage symbol (but is not a double-base figure), move the target up to 8 squares so long as it ends its movement 8 or fewer squares from this character. (2) Move an Object or a Friendly Character: This character targets an object or a friendly character that is 8 or fewer squares away and moves it up to 8 squares so long as it ends its movement 8 or fewer squares from this character in a square to which this character has a clear line of fire. (3) Attack with an Object: This character makes a ranged combat attack targeting a single opposing character as if it occupies the square occupied by a non-held standard object; this character must be 8 or fewer squares away from both the object and the target of the attack. The target of a successful attack using a light object is dealt 2 damage; a heavy object, 3 damage.

Toughness

(Non-Optional) Damage dealt to this character is reduced by 1.

Willpower

This character does not take pushing damage.

#002 Saturn Girl

✎ **Telepathic Coordination:** Once during your turn (but not during another action), as a free action Saturn Girl modifies by +2 the attack value or defense value of any other target friendly character for the duration of an action. Saturn Girl must be within 10 squares of and have a clear line of fire to the target.

#005 Phantom Girl

After the resolution of any action given to the target, you can release the target. Remove all action tokens from the target and put Jericho in any unoccupied square within 4 squares to which the target has a clear line of fire. The target

becomes friendly to its owner's force and opposing to your force.

If the target is possessed at the end of your turn, roll a d6 and add 1 to the result for each 100 points (or fraction thereof) of the target's point value. If the result is 6 or more, the target is released. If the result is 5 or less, deal Jericho 1 unavoidable damage.

Each time the possessed target takes damage, deal Jericho 1 unavoidable damage after the action is resolved. Any effect that can counter the target's powers can counter Jericho's Possession. If Jericho is eliminated or Possession is countered or canceled, the target is immediately released. Jericho and possessed characters can't be targeted by Mind Control or Possession.

This power cannot be canceled.

When another friendly character would take pushing damage, you can remove a *Manipulate* token from the *Chief's* character card and roll a d6; on a result of 3-6, the character ignores the pushing damage.

👊 **Strategist:** *The Chief* can use *Perplex* and *Mastermind* (he can deal the damage to a friendly character that has a higher point value if that character shares a keyword with the *Chief*); damage transferred using *Strategist* may not be later dealt to the *Chief*.

When a character opposing to *Trigon* occupies a square adjacent to a doppelganger token or tokens and is given a non-free action, deal the character 1 penetrating damage if the character is adjacent to a doppelganger token after the action is resolved.
