### How To Use This Document

This document is divided into two parts. The first part details every clarification that has been made in HeroClix for all game elements. These 32 pages are the minimal requirements for being up to date on all HeroClix rulings.

Part two is a reference guide for players and judges who often need to know the latest text of any given game element. Any modification listed in part two is also listed in part one; however, in part two the modifications will be shown as fully completed elements of game text.

# Section 1 Rulebook

## General

- Many figures have been published with rules detailing their abilities. The specifics of these abilities are overridden by the description of the ability in the *Blackest Night Powers and Abilities Card*.
- Typographical errors (such as a missing period) that do not impact the way in which a game effect would be played are not listed in Part 1 as errata, though the corrected form of the game effect would appear in Part 2.

## Actions

- No figure may be given more than one non-free action per turn.

## Attack

- The glossary entry for attack begins: “Part of an action...”
- Damage from a critical miss is not part of the attack.

## Battle Map Removal

- Characters that are removed from the battle map are not affected by Battlefield Conditions.
- Characters that are removed from the battle map are not affected by game effects that characters on the battle map possess (unless it says otherwise).
- Characters that are removed from the battle map may not use their own powers, abilities, or feats except as stipulated by the effect removing them from the battlefield.

## Combat Values

- When an attack roll is rerolled, the combat values used for the first roll will be used for the second roll.

## Compatibility

- All **HeroClix** game lines are compatible with all other **HeroClix** game lines. **HeroClix** has two game systems. **HeroClix: Alpha** characters can be played in **HeroClix** by treating every colored power as a standard power (not the description on the character card) and by using the character card for the keywords.

## Damage Dealt

- Unless specified otherwise, game effects that increase damage dealt are calculated before game effects that reduce it.
- If multiple game effects would allow for damage dealt to a character to be reduced, only one game effect can activate, to be decided by the character’s controlling player.
- Page 9, under Unavoidable Damage reads: “Unavoidable damage is damage dealt that can’t be evaded, reduced, modified, ignored, or transferred to another character.”

## Damage Taken

- The amount of damage a character takes is always considered the total amount that would be taken assuming the figure is not KO’d or the dial is otherwise stopped while turning.

## Event Dials

- Event dials included as part of your force are still subject to having the approval of your opponents.

## Feats

- The first paragraph of Using Feats reads: “To use a feat, the prerequisites must be present on the character’s combat dial at the time that the player gives the character an action or otherwise uses the feat.”

## Free Actions

- Any game effect that grants the character a free action can never use that free action to initiate the action that granted the free action in the first place. (For example, the power action of Multiattack cannot be used to give the character a power action for another Multiattack).
- If a game effect allows you to perform a specific power or ability as a free action, then that effect is not considered to be the type of action which would normally be given. (For example, when Zoom uses Flurry during Hypersonic Speed, there is no close combat action given.)
- Free actions may be used during the beginning of turn and during the end of turn.

## Giant Characters

- A giant character must be one square away from blocking terrain to destroy it with a close combat attack.

## Ignoring

- A character which ignores a game effect may still be targeted with that game effect. Any special attributes of that effect will be ignored. For example, a character with the Repulsor Shield feat that is hit with an attack using Ranged Combat Expert would not ignore the attack, it would ignore the +2 damage dealt provided by the Ranged Combat Expert power.
- Game effects which alter the way a figure is KO’d cannot be ignored.

## Initiative

- There are many mechanics which require player(s) to select things at the beginning of the game. The initial roll-off between players to determine who goes first is used to

determine which player performs all of their “start of game” decisions first.

## **Keywords**

- Diacritics (such as the dots above an ü) are the same as their standard letter counterpart. For example, Blüdhaven is the same as Bludhaven
- Hyphens do not alter a keyword. For example, Legion of Super Heroes is the same as Legion of Super-Heroes.

## **Knock Back**

- Powers and abilities that would prevent knock back are checked for before damage from the attack is applied.
- Knock back is not considered to be movement.
- On page 10, under the “Knock Back Off Elevated Terrain” heading, the third sentence begins: “Characters using the Flight ability...”
- The edges of the map are treated in a similar fashion to walls or blocking terrain for knock back purposes.

## **Lines of Fire**

- When a character has the ability to ignore the effects of other characters for line of fire purposes, it refers only to the fact that character bases do not affect the line of fire. This ability alone would not allow the character drawing a line of fire to ignore powers or abilities by other characters.
- When a character draws a line of fire to an object held by a character, they do not need to draw a line of fire to the character holding the object, only the square itself. Therefore, abilities like Stealth would not prevent the line of fire from being drawn.
- Some special powers allow a character to use a standard power against one or more adjacent characters. When adjacency is specified in this way, the character using the special power does not need to have line of fire on the target(s).
- When a line of fire crosses an intersection, check the line of fire as if it crossed each of the 2 squares that make up the intersection (as if the line were just a little left and then as if it were just a little right). The line of fire across the intersection is considered the same as the line of fire that is least restrictive to the character drawing the line of fire.
- Any game effect that has a line of fire drawn to it is considered a target.

## **Modifiers**

- Modifiers can always be applied to a character. However, if another game effect causes the character to be unable to have its values modified, then the modifiers are ignored.
- When a modifier during an attack is based on a figure meeting a particular criteria (usually the targeted character), then that modifier only applies to the targeted character(s) but would not apply to any targeted characters that did not meet the criteria.

## **Movement**

- A character can move through a square occupied by a friendly character, but it can’t move through a square occupied by an opposing character.
- A character which “cannot be moved” may not be given a move action to move 0 squares as that is movement.
- A character with Super Strength cannot pick up an object as it moves into a square adjacent to an opposing character, unless the moving character has another power or ability that allows it to ignore the effects of other opposing characters on movement.

## **Multi-Based Characters**

- If a multi-base character has any of its base in hindering terrain and the rest of its base in clear terrain, it is starting its movement in hindering terrain regardless of which end the movement is lead with.
- If a multi-base character has some of its base in hindering terrain and some of its base in clear terrain, only the part that is in hindering terrain would gain any benefits of hindering terrain for line of fire purposes.
- When a multi-based character moves between walls and/or blocking terrain, the character’s narrowest edge must be able to fit between the two terrain features.
- Squares on opposite sides of a multi-base figure are not adjacent.

## **Naming**

- Abbreviated titles are considered the same as their long forms for determining a character’s name. For example, Dr. Octopus and Doctor Octopus are considered the same name.

## **Objects**

- A particular special object can be chosen only once by each player per game.

## **Powers/Abilities**

- When a game effect refers to “a standard {combat type} power” it is referring to a standard power in that combat type’s stat. For example, “a standard attack power” would include Quake but would not include Charge (even though there is an attack in Charge, it is not an “attack power”).
- When a special power indicates that a character “can use” a standard power in some way, the use of that standard power must be decided as an action is given and remains in use (or not in use) for the duration of that action including any free actions that are granted by the given action.
- Powers and abilities which allow a character to use a standard power in an altered way only change those aspects of the standard power specifically listed.
- When a character card contains descriptive text for a standard or named power, refer to the Powers and Abilities Card for the text of the power.

- Powers and abilities which allow a character to use a standard power in an altered way are still considered to be standard powers for other game effects.
- Powers and abilities that may only be used once per turn, round, or game may be used accordingly for each way the character may use the effect. (For example, a character may use Probability Control once per turn through its own power then again using the themed team mechanic.)
- On page 15, the last paragraph under the heading "Powers and Abilities" begins: " Whenever a power or ability is countered..."
- If a character is being affected by a power or ability when it is replaced for another (i.e., Alter-Ego, Morph, etc.) the new character remains affected.
- If a character has activated a long-lasting game effect when it is replaced for another (ie, Alter-Ego, Morph, etc.) the new character continues the effect only if the new character also can use that effect.
- If the duration of the effect of a power or ability is specified (ie, blocking terrain markers from Barrier), the effect ends when the power or ability is lost or countered. If the duration is not specified (ie, action tokens from Incapacitate), the effect remains when the power or ability is lost or countered.

## ***Pushing***

- On page 7, the first sentence of this heading ends: "... deal one pushing damage to that character after actions resolve."
- Pushing damage triggered by or during an action must be resolved before the end of the game can be determined.

## **Replacements**

- Replacement values apply to a character for as long as that character meets the replacement's requirements.

## ***Terrain***

- Walls that are destroyed in the middle of an action are considered destroyed immediately within the action. The adjacent terrain does not become hindering terrain until the end of that action.
- If one type of terrain exists behind other types of terrain, each terrain type must be destroyed separately.
- An "area of terrain" is a square or group of squares that are enclosed by a single colored line. Two sets of colored lines that overlap or are adjacent are separate areas of terrain.
- Special terrain (orange squares) that require a character to occupy the square, require that the entire base must be occupying the terrain.
- Game effects which would allow a figure to relocate terrain may not be used on terrain printed on the map.
- Web Special Terrain Marker: A character occupying this square must break away for movement purposes. Immediately after the character occupying this square no longer occupies it, remove this marker from the map.
- The red border on elevated terrain is elevated.

## ***Turns***

- The "beginning of turn" ends with the first non-free action assigned to a character, unless that action specifically states that it can be given during the beginning of the turn.
- Effects that occur at the end of the turn may be performed in any order, but you may not give your figures actions after you have cleared tokens.

## ***Victory Points***

- If no opposing player damaged a defeated character, split the victory points evenly among all opponents.

## ***Walls***

- All walls are assumed to stop exactly at the edges of squares. Even if it looks like a wall "sticks out" into a doorway, it doesn't, and thus diagonal attacks can pass through without being blocked.
- A square of blocking terrain on the opposite side of the wall does not block the line of fire to that square when targeting a wall with a ranged attack.
- If blocking terrain exists on the opposite side of a wall, destroying the wall does not destroy the blocking terrain. Only place a rubble token on the side of the wall without the blocking terrain. A separate attack must be made to destroy the blocking terrain.
- To destroy a wall, the line of fire must pass through both squares on either side of the wall or the intersection points of these squares.

[This page is intentionally left blank.]

## Section 2 Powers

### Barrier

- Blocking terrain markers can be destroyed as per the rules for destroying blocking terrain. They would be replaced with rubble tokens when destroyed. The rubble tokens are removed from the game the same time that the normal blocking terrain markers are removed from the game.

### Blades/Claws/Fangs

- The last sentence ends: “then that damage value is locked until the attack resolves.”

### Charge

- Characters using Charge still follow standard rules of movement, including break away and the ability to carry other characters. However, a carried character must be dropped before the Charging character uses the Free Action portion of Charge to attack.
- A Charge out of hindering terrain works at one-fourth the character’s initial speed. First, the character’s move is halved (provided it does not have any powers or abilities that allow it to ignore the effects of hindering terrain on movement) because it begins its move in hindering terrain. Then the move is halved again if the character chooses to use Charge.
- ~~Moved to “Section 1: Movement” A character using Charge with Super Strength cannot pick up an object as it moves into a square adjacent to an opposing character, unless the Charging character has another power or ability that allows it to ignore the effects of other opposing characters on movement.~~
- Before the attack roll is made, a character may cancel its Charge ability to intentionally allow for knock back.
- When a character uses Charge and the Carry ability, the standard rule of “replace, then modify” applies. The speed would first be halved and then, if another character is carried, it would be reduced by 2.
- The last sentence reads “A character using this power ignores knock back.”

### Combat Reflexes

- Using this power does not prevent knock back from occurring, if doubles are rolled.
- A character that is normally immune to knock back that has Combat Reflexes can choose to take knock back when hit with a successful attack. When this option is selected, the attacking player still gets to choose the direction of the knock back (if a choice can be made).

### Earthbound/Neutralized

- Any abilities that a character can use because of the combat symbol they possess are unavailable when Earthbound/Neutralized as the character’s combat symbols all change when this power is in use.

### Energy Explosion

- When knock back occurs from this attack, all characters that take damage from this attack are knocked back

normally in the direction away from the attack starting with those farthest from the attacker. If the attacker itself takes damage, it is not knocked back.

- All damage from the Energy Explosion attack is dealt at once. If a character were hit by both an EE attack and splash damage, then that character would be dealt 2 damage. If the character had Toughness it would be dealt 2 damage, minus 1 for the Toughness for a total of 1 damage.

### Enhancement

- A Damage Value increased by Enhancement may be used to attack objects and walls in a ranged combat attack.

### Flurry

- When attempting to destroy terrain, a character using Flurry must still deal a minimum of 3 damage using one attack.
- Any optional powers that are not in use when the first attack is made with Flurry cannot be used for the second attack.

### Force Blast

- Though not an attack, this power targets the figure(s) being knocked back.

### Hypersonic Speed

- All references to “Hypersonic Speed, Option 1” refer to the power Hypersonic Speed.
- If a character can pick up an object during the move portion of the action before they attack, they would be required to use it if they make a close combat attack. They would not be able to use an object for a ranged attack as doing so requires a ranged combat action (the power only provides a ranged combat attack).
- If the target character is eliminated by the attack, it is removed from the board immediately and the attacking character can occupy that square.
- A flying Hypersonic Speed character can carry another figure while performing this action, however the carried character is “off the board” for the entire movement, including the portion of the movement when the attack takes place. As such, powers and team abilities of the carried character (like Probability Control, Enhancement, etc.) cannot be used during the movement.
- The Hypersonic Speed character commits to the square from which the attack will be made prior to making the attack. If the attack becomes illegal (e.g., Shape Change, Skrulls, etc.), the attack can be made against a different target, though a different square cannot be selected.

### Incapacitate

- This last sentence reads: “...its damage value becomes 0 and is locked.”

### Leadership

- This power reads: “...even if the player has more than one character that can use Leadership.”

### Mastermind

- Damage transferred with Mastermind can only be directed to one character, even if the damage transferred is more than enough to KO the adjacent character.

### Mind Control

- If a character affected by Mind Control KOs another opposing character, or is KO'd itself, the controlling player receives the victory points.
- When a character is affected by Mind Control its powers and team abilities, even those powers and team abilities cancelled by the opposing player, may be used as normal. Powers previously countered with Outwit remain countered. Powers that may only be used once per turn, round, or game may be used accordingly per Mind Controller.
- A character that is targeted with Mind Control cannot use any feats during the Mind Control action.

### Outwit

- When a Special Power is used to counter all powers on a character, it causes new powers to appear on the dial to also be countered, as the character's dial changes.
- If a countered power no longer shows on the dial, but then returns to the dial before the beginning of the Outwitting player's next turn, the power is still countered.
- Outwit counters powers which is different from ignoring a power. Powers like Pulse Wave ignore damage reducing powers while Outwit could be used to counter the damage reducing power. See the Glossary in the rulebook for more information.

### Phasing/Teleport

- A character using Phasing/Teleport that has the ability to carry characters can carry characters through blocking terrain and such as it uses Phasing/Teleport.
- A character using Phasing/Teleport that has the ability to pick an object up can do so while using Phasing/Teleport.

### Probability Control

- The rule of thumb for using Probability Control is "your own dice on your turn, your opponents dice on your opponent's turn." The typical roll of something like Super Senses would be the defender's roll on the attacker's turn, and so neither team would be able to use Probability Control.
- Rolling either a critical hit or a critical miss does not prevent the roll from being subject to Probability Control.

### Penetrating/Psychic Blast

- Any reference to "Psychic Blast" refers to "Penetrating/Psychic Blast".

### Pulse Wave

- The sixth sentence of this power reads: "If lines of fire can be drawn to two or more characters, this character's damage value becomes 1 and is locked."
- Powers ignored by Pulse Wave are not considered countered. Powers out of the range of the Pulse Wave attack still affect it normally. If a character using Perplex

or Outwit is within range of the Pulse Wave attack, that power is considered "in range" and is ignored during this attack.

- While Pulse Wave ignores powers and abilities, it does not counter them. Therefore, terrain created as a result of using a power is considered terrain and affects Pulse Wave normally, even if the character generating that terrain is within range of the Pulse Wave. Characters holding an object due to a feat or power would still be able to hold the object and even use the held object (if it helps defensively).
- Characters with feats or team abilities that affect what happens upon their KO (such as Fantastic Four or Lazarus Pit) are still ignored during the Pulse Wave action. They still have a team symbol and are considered members of their teams, so characters outside the range of the Pulse Wave can benefit.
- Any game effects that would prevent a character from being knocked back, if they are ignored by the Pulse Waver, would mean the character is knocked back.
- The character using Pulse Wave does not have any of its powers, traits, abilities, or feats ignored during the Pulse Wave attack.

### Quake

- When using Quake against multiple opposing characters and one or more of the characters becomes an illegal target (due to Shape Change, Skrull, etc), the attack is still made against all legal targets. If there are no legal targets then the attack cannot be made.

### Running Shot

- Characters using Running Shot still follow standard rules of movement, including break away and the ability to carry other figures. However, a carried figure must be dropped before the character using Running Shot uses the Free Action portion of Running Shot to attack.
- A Running Shot out of hindering terrain works at one-fourth the character's initial speed. First, the character's move is halved (provided it does not have any powers or abilities that allow it to ignore the effects of hindering terrain on movement) because it begins its move in hindering terrain. Then the move is halved again if the character chooses to use Running Shot.
- ~~Moved to "Section 1: Movement" If a character can pick up an object during the move portion of the Running Shot, they would be able to use it for the attack as well (though it is not required as with a close combat attack).~~
- When a character uses Running Shot and the Carry ability, the standard rule of "replace, then modify" applies. The speed would first be halved and then, if another character is carried, it would be reduced by 2.

### Shape Change

- If Character B makes a successful Shape Change roll against Character A's attempt at targeting Character B, then Character A cannot target Character B with an attack for the rest of the turn.

- If a successful roll of Shape Change is made, but the action declared is not illegal, then the action must continue as stated.
- Shape Change activates only when the character is the target of an attack. Indirect damage, like from Energy Explosion “splash”, Poison, or Mastermind, would not activate the power.

### **Smoke Cloud**

- When a power lets a character use Smoke Cloud but limits the terrain markers to squares the character moved through, the character can place markers in squares it moves through as a result of being moved with TK.

### **Steal Energy**

- A character using Steal Energy while on their first click is not considered healed when an opposing character takes damage from a close combat attack.

### **Stealth**

- Adjacency is not an issue when determining a line of fire to a character using Stealth and occupying hindering terrain. Powers like Probability Control, Perplex, and Outwit, which use a line of fire to determine if the effect can take place, cannot target a character using Stealth that occupies hindering terrain, even if the character with the ability is the character using Stealth itself.
- A giant character that uses Stealth cannot have a line of fire drawn to it when in hindering terrain, regardless of the elevation of an opposing attacking figure.

### **Super Strength**

- If a character is given an action that requires break away and that break away attempt fails, then there is no movement and an object would not be able to be picked up, even if it is adjacent to the character at the start of the action.

### **Telekinesis**

- The fourth sentence reads: “For options 1 and 2, a target character ignores the effects of elevated and hindering terrain on movement.”
- Option 2 includes the sentence: “A target character needs to roll break away (if necessary) and would not ignore the effects of other characters on movement.”
- Characters moved with Telekinesis do not suffer damage from hitting terrain (you cannot slam a character into a wall or hurl them off a building with Telekinesis).
- A character may use Telekinesis to move a character holding an object.
- When using Telekinesis to move an object into a square occupied by a character, that character does not block line of fire to that square.
- A friendly character moved via Telekinesis can still take a non-free action the turn it was moved (though it cannot use Telekinesis).
- Option 3’s second sentence reads: “This character makes a ranged combat attack against the opposing character.”
- For options 1 and 2, the path of movement is limited to 8 squares.

- [A figure may not target itself with Option 2.](#)

[This page is intentionally left blank.]

## Section 3 Abilities

### Capture

- The rules for Capture can be seen in Section 11 of this document.
- If a character is holding an object when captured, the object is placed in the square the character occupied when captured. If there is an object already in the square, the dropped object would be removed from play.
- If a character using this ability loses it, then any captives are ~~released~~rescued.

### Colossal Size

- Colossal Size begins: “(NON-OPTIONAL) Characters with the ✨ and 🦠 damage symbols do not block lines of fire to or from this character.”
- Colossal size includes this sentence: “This character can make close combat attacks against elevated characters, even when this character is grounded.”
- The fourth sentence ends: “...but terrain effects still apply normally.”
- Colossal Size includes: “When this character has two action tokens, it can be given a non-free action. After the action resolves, deal it 1 unavoidable damage and do not remove action tokens from it at the end of the turn.”

### Flight

- The last two sentences read: “A character using this ability can move through squares adjacent to and occupied by opposing characters. An elevated character using this ability ignores knock back damage if its knock back path crosses the boundary of elevated terrain.”

### Move And Attack

- Once you have begun using Hypersonic Speed with this ability, adjacency to an opposing figure will not prevent its use.

### Multiattack

- The Capture ability may not be used via the free action granted by Multiattack.

### Sharpshooter

- This ability allows the character to make a ranged combat action/attack while based. If the attack targets, then targets of the attack must be the adjacent character(s). Regardless of targets, non-adjacent characters can be affected by the attack (such as would be the case with powers like Pulse Wave and Energy Explosion).

[This page is intentionally left blank.]

## Section 4 Characters and Special Powers

### General

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be functionally different from a legal WizKids-released version of the element. This policy does not apply to 3D elements, though it does apply to the cards that accompany them.

### Avengers

#### #009 Hulkling

- The keyword “Skrull” is “Skrulls”.

#### #023 Lionheart

- The keyword “Captain Britain Corps.” is “Captain Britain Corps”.

#### #029 Taskmaster

- Better You Than Me is a defense power, not a damage power.

#### #030 Iron Lad

- The keyword “Armored” is “Armor”.

#### #032 Red Skull

- The special power Cosmic Cube begins “The Red Skull can use Outwit, Perplex, and Probability Control.”

#### #036 Falcon

- When using Fly-By, if Falcon chooses to use the rest of his halved movement, and he starts the movement adjacent to a character from which he has not yet broken away this turn, he would need to roll break away normally.

#### #043 Molecule Man

- Molecular Destruction is an attack power, not a speed power.
- Molecular Destruction’s rule text replaces “Once per turn...” with “Once during Molecule Man’s turn...”

#### #047 Wiccan

- Group Teleportation says “...When he uses this power, he can use the Carry ability to carry up to three friendly characters....”

#### #049 Two-Gun Kid

- Fanfire’s rule text replaces “two separate close combat attacks” with “two separate ranged combat attacks”

#### #052 Citizen V

- The character card has Charge listed on it.

#### #055 Hulk

- Toughness is a defense power, not a damage power.
- Hulk Gonna Tear Your Head Off is a damage power marked with the giant damage symbol.

#### #057 Scarlet Witch

- This character has the wing speed symbol instead of the boot speed symbol.

#### #102 Firelord

- This character has Toughness on slots 4, 5, and 6.
- This character has Energy Shield/Deflection on slots 7, 8, and 9.

### Justice League

#### #001 Batman

- To use Out of the Shadows: (1) Announce the type of non-free action Batman will take, even if it is not a legal action from his current position, as long as it can be legally done from step 3. (2) Reposition Batman from a square of hindering terrain to another square of hindering terrain. (3) Perform the declared action.
- Batman does not need to break away from an adjacent character in order to be placed with Out of the Shadows.

#### #007 Icicle

- Action tokens are only assigned when the barrier terrain tokens are placed with Copsicles, not if a character moves or is moved adjacent to them.
- 2 squares of diagonally touching barrier terrain tokens will prevent adjacency between a character and another barrier terrain token on the opposite diagonal.

#### #009 Emperor The Joker

- Unpredictable Omnipotence’s rule text replaces “unpreventable damage” with “unavoidable damage”.

#### #016 Bouncing Boy

- The keyword “Legion” is “Legion of Super Heroes”.

#### #017 Parasite

- If Attack Drain is used to copy Super Strength, the actions Parasite must roll 2d6 are when he picks up the object and when he uses it in an attack.
- Parasite can not be given a power action to activate Defense Drain.

#### #026 Captain Boomerang

- When using Boomerang, making an attack “as if he occupied the square” is for range, knock back and line of fire. All other conditions, such as using an ability that requires adjacency or line of fire, Captain Boomerang is still in his original square.

#### #028 Zatanna

- onrefn! is an attack power, not a damage power.

#### #033 Vigilante

- This character has a Transporter Boot symbol instead of the Transporter Wing symbol.

### **#035 Deadman**

- Add “This power cannot be canceled” to the rules text of Possession.
- Feats assigned to the target character cannot be used while possessed.
- Feats assigned to Deadman cannot be used by Deadman while he is possessing a character.
- If Deadman must stop possessing a character and there is no square to which a line of fire can be drawn, Deadman is placed in the closest available unoccupied square. If Deadman chooses to stop possessing a character but has no available square, then he cannot stop possessing the character.
- Possession is not Mind Control. Characters that normally cannot be targeted with Mind Control can be targeted with Possession.
- If Possession is used on the opponent’s last character, then the game would end. Each player would calculate victory points they have earned and the winner would be determined accordingly.

### **#036 Granny Goodness**

- The keyword “Apokolips” is “Apokolips”.

### **#041 Mr. Mxyzptlk**

- When using Object Animation, the line of fire only needs to be drawn to the square(s) – not the character(s).

### **#048 Dream Girl**

- The keyword “Legion” is “Legion of Super Heroes”.

### **#051 Lobo**

- Nobody Rides This Hog but the Main Man ~~cannot be canceled~~includes: “This power cannot be canceled.”
- If Bounty Hunter is outwitted, when it returns, a new target character may be selected.

### **#053 Big Barda & Mister Miracle**

- The keyword “Green Lantern” is “Green Lantern Corps”.

### **#055 Green Lantern**

- The keyword “Green Lantern” is “Green Lantern Corps”.

- Aquaman’s character card should list the point value as 70 points.

### **#104 Green Lantern**

- This character has the wing speed symbol instead of the boot speed symbol.

## ***Mutations and Monsters***

### **#006 Pete Wisdom**

- Hot Knives is “Energy Explosion” instead of “Orange”.

### **#009 Cuckoo**

- The special power Hive Mind starts “When Cuckoo is given a non-free action...”
- Coordination says “...When Cuckoo is given a move action, she can use the Carry ability to carry up to two other adjacent Cuckoos.”

### **#012 Colossus**

- The first sentence of Fastball Special reads “Colossus can use Telekinesis, but only Option 3 and only on adjacent objects.”

### **#031 Professor X**

- The keyword “Illuminati” is “Illuminati”.

### **#034 Archangel**

- For clarifications on Fly-By, see Avengers #036 Falcon

### **#038 Omega Red**

## Section 5 Special Characters

### General

- When a special character's printed rules indicates that they possess an ability that is documented in the latest rulebook, the rules from the rulebook override the printed rules for the character.
- When a special character's printed rules indicate that they can only take one action per turn, it is only referring to non-free actions.

### Dark Phoenix

- Replace the first sentence of the first paragraph under Special Rules with: "Dark Phoenix ignores the Exploit Weakness, Force Blast, Incapacitate, Mind Control, Plasticity, Poison, Psychic Blast, Shape Change, Steal Energy, and Support powers, as well as team abilities that duplicate these powers."
- Replace the second sentence under Actions and Pushing with "Dark Phoenix may be pushed each turn; it will not be dealt pushing damage while the Power Cosmic team ability is active."

### Fin Fang Foom

#### Part of a Force Rules

- When Fin Fang Foom uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to the number of dials he started with, overriding all other restrictions on this number.

### Galactus

#### Scenario Rules

- Under **Combat**, replace the sixth paragraph with: "Galactus can attack and be attacked by grounded and elevated characters."
- Probability Control cannot be used against Galactus' rolls, as Galactus doesn't have a turn.
- Galactus does not retaliate if damaged during its action.
- Galactus is not forced to respond with the same kind of attack that damaged him.
- If the character who dealt damage to Galactus is KO'd before Galactus retaliates, then Galactus does not retaliate.
- If Galactus retaliates against more than one character after being dealt damage and misses the character that dealt damage to Galactus but hit one or more other characters, then Galactus may divide his full damage among the characters successfully hit.
- When retaliating, Galactus may still use the Pulse Wave ability, even though it doesn't specifically target a figure, if the figure that damaged Galactus is within range of Galactus' Pulse Wave.
- Galactus' retaliation occurs immediately after the first action resolution that results in Galactus taking damage. For example, during a Hypersonic Speed attack, Galactus

would retaliate immediately after the free action that resulted in Galactus taking damage resolves, before the figure using Hypersonic Speed completes its movement. If Galactus takes damage from the first free action of a Multi-attack or Cosmic Multiattack, Galactus would retaliate before the second free action occurs; if the second free action also resulted in Galactus taking damage, he would retaliate after that action as well.

#### Part of a Force Rules

- Add the following to the first paragraph under **Movement**: "Galactus ignores the effects of team abilities on movement."
- Add the following to the first paragraph under **Movement**: "Galactus ignores indoor blocking terrain for movement purposes. Any indoor blocking terrain Galactus crosses is destroyed; mark blocking terrain destroyed in this manner with two rubble markers."
- Replace the first sentence of the first paragraph under **Powers and Abilities**: "Galactus ignores the Exploit Weakness, Force Blast, Incapacitate, Mind Control, Plasticity, Poison, Psychic Blast, Shape Change, Steal Energy, and Support powers, as well as team abilities that duplicate these powers."
- Feats cannot be assigned to Galactus.
- Damage carries over from one combat dial to another. In a battle against Hungry Galactus, for example, if there is 1 click left on the Hungry combat dial, and Galactus takes 2 damage, the "extra" 1 damage is applied to the Starving combat dial.
- Galactus ignores the Skrulls and Danger Girl team abilities.
- When Galactus uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to the number of dials he started with, overriding all other restrictions on this number.
- When Galactus moves, all parts of his base are considered to be in clear, grounded terrain.

### Galactus (Coming of Galactus)

#### Scenario Rules

- The sentence reading: "Galactus always uses any powers showing on his current combat dial against the target, if possible." says "Galactus always uses any powers showing on its current combat dial to his greatest advantage, and he will always first use his powers and abilities in an attempt to damage an opposing character."
- When Galactus uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to the number of dials he started with, overriding all other restrictions on this number.

#### Part of a Force Rules

- Where their powers overlap, the clarifications for Galactus apply to COG Galactus.

### ***Jean Grey Phoenix***

- Replace the first bullet point under Special Rules with: “are not affected by Exploit Weakness, Force Blast, Incapacitate, Mind Control, Plasticity, Poison, Psychic Blast, Shape Change, Steal Energy, Support, or any team abilities that duplicate these powers;”

### ***Sentinel***

- The Sentinel with an Infinity Challenge set symbol should use the Advanced Sentinel Rules.

### ***Spectre***

- When Spectre uses Energy Explosion or Pulse Wave against multiple targets, the damage dealt per hit is equal to the number of dials he started with, overriding all other restrictions on this number.

### ***Starro***

- When Starro uses Pulse Wave against multiple targets, the damage dealt per hit is equal to the experience level he started with, overriding all other restrictions on this number.

## Section 6 Team Abilities

### General

- Any team abilities that refer to a “team member” actually refer to “a character using this team ability.”

### AVENGERS

**Clarifications:** *see Free Moves*

### BATMAN ENEMY

**Clarifications:** *see Sinister Syndicate.*

### BROTHERHOOD OF MUTANTS

**Clarifications:** *see Free Moves*

### CRIME SYNDICATE

- The character using this team ability is subject to all the standard rules regarding Probability Control with the additional requirement of placing a token on a character in order to use the ability.

### DEFENDERS

- This team ability reads: “Characters using the Defenders team ability can replace their defense value with the unmodified defense value of an adjacent friendly character using the Defenders team ability.”
- The Defenders team ability works in the same manner as the “Defend” power, except that it can only be used with other Defenders team members.
- This team ability can be used during Support.

### Free Moves

- When a character with this team ability is given a move action, that action does not get subtracted from the players action pool for that turn. The acting character is still assigned a token and would be dealt pushing damage as normal, if this is not their first token.
- This team ability does not alter what kinds of actions can be assigned to the character. If it has been carried this turn, you could not assign it a move action, as it is “free”. It is not a free action, it is an action which is free from the perspective of your action pool (the number of actions you can assign on a turn).
- If a character with this team ability is given a move action that requires break away, it may still use this ability. On a failed break away roll, it would still get a token and the action will not come from the action pool.

### HYDRA

- This team ability reads: “When a friendly character making a ranged combat attack is adjacent to one or more characters using the Hydra team ability, each opposing character targeted by the attacker modifies its defense value by -1 for each character using the Hydra team ability if the characters using the Hydra team ability also have a clear line of fire to the target.”

### HYPERTIME

- If a character fails its roll while trying to become adjacent to the Hypertime team member, it may continue its move from the current position. If there are no legal squares in

which the character that failed its roll against the Hypertime team ability may move, the character must end its movement in the first available legal square along the path it took when moving adjacent to the Hypertime team member, even if that square is the square in which the character began its movement.

- This team ability only applies when a character goes from not being adjacent to a Hypertime character to becoming adjacent to a Hypertime character. If one is adjacent to a Hypertime character at the beginning of an action, for example, and rolls successfully for break away, then a Hypertime roll would not be necessary if the character moves and maintains adjacency to that Hypertime character.
- When attempting to move into adjacency with two or more opposing characters using this team ability, one roll is made.
- The character attempting to move into adjacency is the character which makes the roll.

### JUSTICE LEAGUE

**Clarifications:** *see Free Moves*

### JUSTICE SOCIETY

**Clarifications:** *see Defenders*

### MASTERS OF EVIL

- The damage applied to a character with this team ability on the third turn it acts is not pushing damage. Willpower (or other effects that allow a character to ignore pushing damage) would not apply to the unavoidable damage this team ability generates.
- The second action a character with this team ability takes is normal pushing damage, for which Willpower and other similar effects would work fine.

### MYSTICS

- As the damage from this team ability is not an attack, it would not cause retaliation damage if it were applied to another Mystics character.
- This team ability would still activate as the character is KO'd.
- If a Mystics character somehow deals damages to itself in an attack and does not cancel this ability, it will still activate and damage itself.

### POLICE

**Clarifications:** *see Hydra*

### POWER COSMIC

- This team ability reads: “Characters using the Power Cosmic team ability do not take pushing damage and their powers cannot be countered. This team ability can’t be used by wild cards.”
- Powers that allow you to ignore other powers would still be effective against a character using this team ability. Exploit Weakness, for example, does not counter damage reducing

powers, but ignores them, so it would still work against a character with this team ability.

### **QUINTESSENCE**

**Clarifications:** *see Power Cosmic.*

### **S.H.I.E.L.D.**

- Multiple S.H.I.E.L.D. characters can be used to provide multiple bonuses to a single friendly character. These bonuses are always subject to the Rule of Three.
- The action token is assigned to the S.H.I.E.L.D. characters (for power actions) when they use this team ability regardless as to whether the attack was successful or not.
- The S.H.I.E.L.D. character does not have to have a line of fire to the target in order to use this ability.
- The S.H.I.E.L.D. character's action is to be declared with the announcing of the action that includes the ranged combat attack.

### **SINISTER SYNDICATE**

- This team ability reads: "Characters using the Sinister Syndicate team ability can replace their attack value with the unmodified attack value of an adjacent friendly character using the Sinister Syndicate team ability."
- The Sinister Syndicate team ability works in the same manner as the "Defend" power, except that it can only be used with other Sinister Syndicate team members and it applies to attack value rather than defense value.
- This team ability can be used during Support.

### **SKRULLS**

- Other than the roll that is required, this team ability works the same as Shape Change.

### **SUICIDE SQUAD**

- **The team ability will activate for each adjacent friendly character KO'd.**

### **SUPERMAN ENEMY**

- The first sentence ends "...to use Outwit."
- The second sentence reads: "That character can use Outwit until the beginning of your next turn, if it cannot use Outwit already and continues to use this ability."
- This power can be used for each set of adjacent Superman Enemy characters. For example, if you have three Superman Enemy characters all adjacent to one another, with point values 75, 60, and 44, there are three potential pairs: 1) 75/60, 2) 75/44, and 3) 60/44. 75 is higher than 60, so 75 gets to use Outwit. 75 is higher than 44, but 75 already can use Outwit—it cannot use it again. 60 is higher than 44, so 60 can use Outwit.

### **TITANS**

**Clarifications:** *see X-Men*

### **ULTIMATES**

- This team ability reads: "Characters using the Ultimates team ability treat hindering terrain as clear terrain for movement and line of fire purposes."

### **ULTIMATE X-MEN**

- Each team member chooses an opposing team ability or character. This choice is made on a character by character basis, and may be different from other members of the team.
- If a wild card uses this team ability, they may select their own target team ability/figure for the bonus. Once the choice is made, the wild card may not change that selection even if they use a different team ability.
- Designating a single character for this team ability grants the bonus only against that single character, even if more than one of that character is in play.

### **Wild Cards**

- If the last character on a force possessing a team ability is KO'd, **or all instances of the team ability are lost, countered, or otherwise absent,** any wild card characters that are currently using the team ability can continue to use it until the end of that action. With the start of the next action, that team ability is not able to be used.
- A wild card can only use a team ability that is possessed by a friendly character on their force. It cannot use a team ability that another character is able to use (but does not possess).
- When using another team ability, a wild card team member is considered part of that team for team ability purposes; for everything else, it is a member of the team printed on its base.
- The rule regarding using only one team ability per action refers only to the usage of the wild card team ability. If a character is a wild card and also is a member of another team, it can essentially use 2 team abilities as it can use its natural team ability as well as its wild card team ability.
- If a character is a wild card in addition to another team ability, being a wild card does not affect their ability to use that other team ability in any way.
- Wild cards cannot use a team ability if they are already using an identical mechanic through another game effect.

### **X-MEN**

- This team ability reads: "When two character that can use the X-Men team ability are adjacent to each other, give one of them a power action and roll a d6. Heal the second character of 1 damage. If the result was 1-4, deal the character given the power action 1 unavoidable damage."
- In order for a character to use the X-Men team ability, the adjacent character must be able to be healed.

## **Section 7     Alternate Team Abilities**

### **General**

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be functionally different from a legal WizKids-released version of the element.
- Alternate Team Abilities must be used and costed for all qualified team members on your force.
- Alternate Team Abilities cannot be used by a character during a free action granted by being successfully hit with Mind Control.
- Unless an Alternate Team Ability says otherwise, the team ability it grants is in addition to any other team ability the character can currently use.

### **JUSTICE LEAGUE INTERNATIONAL**

- This alternate team ability includes: “(This can only be used once per damage dealt.)”

### **THE SOCIETY**

- If a character attempts to use Outwit against a Society member and the Outwit fails due to a successful roll of the team ability, the Outwit can be used against a different opposing character.
- The required keywords for this ATA are: “Secret Society of Super Villains or Society”.

### **THUNDERBOLTS**

- A player using this ATA may change their chosen team ability with each new round of a tournament.
- The definition of a “Marvel team ability” is a team ability listed at the end of Section 15 of this document.

[This page is intentionally left blank.]

## Section 8 Objects

### General

- Print and Play: For WizKids events, players can print any legitimate copy of a cardboard element from HeroClix. The printed version must not be different from a legal WizKids-released version of the element. This policy does not apply to 3D elements, though it does apply to the card that accompanies it.
- 3D objects are not legal for sealed events unless otherwise specified by the Judge running the event.
- When building a force, players may choose 0-3 objects. Based on the number of objects a player chooses they can include:
  - 1 object – any type (heavy, light, or immobile)
  - 2 objects – any two types that are not the same
  - 3 objects – one can be any type, the other two must be a heavy and a light.
- In a sealed game, players may only use objects that are drawn from a booster supplemented by any standard objects. A player's object pool must still conform to force building rules.
- All special objects are treated as Unique for force construction.
- It is possible for multiple objects to exist in the same square. When this happens, each object is treated individually.
- Blocking terrain, walls, or character bases do not block the area of effect of a Special Object but will block the line of fire to and from a Special Object per the standard line of fire rules.

### BLUE LANTERN

- Blue Lantern's effect only increases range values when using Barrier.
- Blue Lantern's effect ends "...if they can already use Telekinesis."

### DYNAMOSTAT

- Dynamostat's effect reads: "This object is considered to be blocking terrain until it is destroyed, but it may be picked up and moved normally."

### FING FANG FOOM'S FINGER

- This 3D object is not a special object – it is a standard heavy object.

### FORCE FIELD GENERATOR

- Once the character has used Barrier as a result of this object, adjacency to the object is no longer required in order for the Barrier tokens to remain. Only destroying the object, the terrain or the beginning of the player's turn will cause the Barrier tokens to be removed from play.

### KINETIC ACCELERATOR

- This card includes the sentence: "If the roll does not allow the given action to be performed against any targets, the action ends immediately."

- If a character is given an action that would require them to replace their speed value (e.g., Charge or Running Shot) while they occupy the same square as the Kinetic Accelerator, both replacements occur at the same time and therefore the active player can choose which effect goes first. If the roll makes it so that the given action cannot be performed, the character is assigned a token for the action and not moved.

### MJOLNIR

- The phrase "place it on that character's card." is simply indicating that the object is taken off the map and placed somewhere to indicate that this is the character that has it. Players can use any acceptable method to simulate this when using a character without a character card.
- The silver version of this 3D object is not a special object – it is a standard heavy object.

### STRUCTURAL INTEGRITY FIELD

- This special object begins: "Blocking terrain (but not blocking terrain markers) and walls..."

### TELEPHONE BOOTH

- This special object should read "Once per turn per character, a character occupying the same square as this object can be dealt 1 unavoidable damage as a free action."

[This page is intentionally left blank.]

## Section 9 Maps

### General

#### Orange Squares/Circles

- Orange squares/circles are clear terrain unless anything in the special rules for that map and/or other effects change them. Placing an object in an orange square (assuming the rules for that map permit it) would make the square act as hindering, but would not remove the properties the special rules for the map provide for it.

#### Tournament Legality

- Official HeroClix maps without the modern color designations are retired. Official HeroClix maps with the modern color designations are never retired.

### Specific Maps

#### Blackest Night Starter

- The last sentence of the special rules reads: “When placing objects at the beginning of the game, each player must place their first two objects (if any) on squares within an orange boundary line.”
- Missing gridlines should be considered to be printed on the map. This affects areas B3-E6, L3-O6, B11-D14, G11-J14, and M11-O16.
- Any angled door is considered open, clear terrain. There is no wall along the edge of the following squares: E2, O2, A3, K3, F6, P6, B7, L7, E18, O18, A19, K19, F22, P22, B23 and L23.
- The 2 Armories and the Control Room are surrounded by walls. The only openings are along the edges of the following squares: E12, K12, L12, E13, F13, and L13.
- The line that runs between rows 8 and 9 is a wall except for H8-J9 (which is all hindering terrain)
- The line that runs between rows 16 and 17 is a wall except for ~~H16-J17~~**G16-I17** (which is all hindering terrain)
- This map is an Indoor map.

#### DC Collateral Damage Map – “The Junkyard”

- There is no wall between squares D12-13 and E12-13.
- Entrance to the indoor section of the map can be gained by the stairs (at E8, E11, E17, & C22), ramp (at B3 & C3), and conveyer belt (E12 & E13).
- The elevated terrain surrounding the “car crusher” (squares M12-P12 & M13-P13) does not block the line of fire from colossal to those squares.

#### DC Legion of Super Heroes Map – “Central Port”

- In order to use the transmatter gates to teleport, the character given the action must end its action (including placing the token and taking push damage) occupying a square with a gate and may then be placed in a different gate.

- Only the character given the action may use the gate. Carrying another figure and placing them on the gate does not allow them to be placed in a square of a different gate.
- In the case of a character being targeted by Mind Control, its free action must be resolved before the Mind Controlling character can elect to use the gate (if that character has ended its move or power action in a square with a gate). The Mind Controller itself would only be able to use a gate when the entire Mind Control action ends.

#### DC Brightest Day Map – “The Monument”

- This is an outdoor map.

#### DC 75 Map – “Hawkworld”

- This is an outdoor map.
- **The rules text for this map reads: “Orange squares are Open Air (Low Gravity). After actions resolve, if a character who can’t use the Flight ability occupies an Open Air square, deal them 1 unavoidable damage, then that character’s owner places them in their starting area. Non-carried objects in Open Air squares are removed from the map. Open Air squares are otherwise treated as clear terrain.”**

#### DC 75 Map – “Airport Terminal”

- The rules text for this map reads: “Orange squares are moving walkways. At the beginning of each turn, each character completely occupying a moving walkway square that cannot use the Flight ability must be placed in this area 1 square closer to the thick orange line of this area. This placement starts with the character closest to the thick orange line.”

#### Marvel Sinister Map – “The Prison”

- Squares F1-F2 and F23-F24 are blocking terrain.

#### Marvel Supernova Map – “Deep Space”

- Space terrain is considered an alternate terrain type similar to Outdoor and Indoor terrain. Characters in these squares obey the special rules of the terrain regardless to how they can otherwise interact with terrain.
- The range value for a character using Hypersonic Speed is one quarter (halved per the description of the power and halved again for space terrain).
- The ranges for Outwit, Perplex, Probability Control, Telekinesis, etc are not affected by space terrain as they do not rely on the character’s range value.
- The “half range” only applies to characters or their targets that are in space terrain. If the line of fire crosses space terrain but neither character is occupying space terrain, the range is not halved.

#### Marvel Fantastic Four Starter Set– Indoor, “Baxter Building”

- There is a wall between squares M15 and M16.
- There is a wall between squares N15 and N16.
- There is a wall between squares P14 and P15.

- There is a wall between squares O15 and P15.
- There is a wall between squares O15 and O16.
- There is a wall between squares O16 and P16.

- There is a wall between squares O17 and P17.
- There is a wall between squares O18 and P18.

## Section 10 Powers

### **Barrier**

Give this character a power action; put up to four blocking terrain markers in adjacent squares of clear terrain that are all within this character's range. A character with a range of 0 uses this power as if it has a locked range of 1. This character must have a clear line of fire to at least one of the terrain markers. The terrain markers remain until the beginning of your next turn.

### **Battle Fury**

(Non-Optional) This character can't make ranged combat attacks, can't be targeted by Mind Control, and can't be carried.

### **Blades/Claws/Fangs**

When this character is given a close combat action, you may roll a d6 after making a successful attack roll. The result replaces this character's damage value, then that damage value is locked until the attack resolves.

### **Charge**

Give this character a power action; halve its speed value for the action. Move this character up to its replacement speed value and then it may be given a close combat action as a free action. A character with-using this power ignores knock back.

### **Close Combat Expert**

Give this character a power action. It makes a close combat attack against a single opposing target character; modify this character's damage value by + 2 for the attack. This power can't be used when using an object as a weapon.

### **Combat Reflexes**

Modify this character's defense value by +2 against close combat attacks. When this character is dealt damage from an attack, it may choose to be knocked back. This character ignores knock back damage.

### **Defend**

Any friendly adjacent character can replace its defense value with this character's unmodified defense value (including a replacement defense value).

### **Earthbound/Neutralized**

(Non-Optional) This character possesses standard speed (🏃), attack (👊), defense (🛡️), and damage (💣) combat abilities and symbols instead of its combat abilities and symbols. This power can't be countered or ignored.

### **Energy Explosion**

Give this character a ranged combat action; this attack can target only characters. For each target successfully hit, compare the attack roll to the defense value of each character adjacent to that target to determine if the attack also succeeds against it. Each character hit is dealt damage equal to the number of times it was hit by this attack (characters adjacent to multiple targets might be hit more than once). A critical hit automatically hits all targets and all characters

adjacent to the targets and deals 1 additional damage to all characters hit. If a character evades the attack, it evades all hits by this attack.

### **Energy Shield/Deflection**

(Non-Optional) Modify this character's defense value by +2 against ranged combat attacks.

### **Enhancement**

When an adjacent friendly character makes a ranged combat attack, this character modifies the adjacent friendly character's damage value by +1 once for the attack.

### **Exploit Weakness**

Give this character a close combat action. Damage from the attack is penetrating damage.

### **Flurry**

Give this character a close combat action. After the close combat attack resolves, it may make a second close combat attack as a free action. If this character loses Flurry before it makes the second attack, it can't make the second attack.

### **Force Blast**

Give this character a power action and roll a d6; a single adjacent opposing character is knocked back from this character a number of squares equal to the result.

### **Hypersonic Speed**

Give this character a power action. It automatically breaks away and can move through squares adjacent to opposing characters. During its move, this character can as a free action make one close combat or ranged combat attack with its range value halved for the attack. This character must be in a square where it could legally end its move in order to make the attack.

### **Impervious**

(Non-Optional) When this character is dealt damage, roll a d6. On a result of 5 or 6, the damage dealt is reduced to 0. On a result of 1-4, the damage dealt is reduced by 2.

### **Invulnerability**

(Non-Optional) Damage dealt to this character is reduced by 2.

### **Incapacitate**

Give this character a close combat or ranged combat action; its damage value becomes 0 and is locked. If the attack succeeds, give the target an action token.

### **Leadership**

Once at the beginning of your turn, as a free action roll a d6. On a result of 4-6, add one action to your action total for that turn. A player can gain only one action each turn with this power, even if the player has more than one character with-that can use Leadership.

### **Leap/Climb**

When you give this character a move action it automatically breaks away, may move through squares adjacent to and

occupied by opposing figures and ignores the effects of hindering terrain, elevated terrain, and outdoor blocking terrain on movement. When you give this character a close combat action, it can target a character regardless of the target's elevation.

### **Mastermind**

When this character would be dealt damage, you may instead choose to have all the damage be dealt to a single adjacent friendly character with a point value less than this character's. Any additional effects of the damage dealt (knock back, penetrating damage, etc.) are applied to the character taking the damage. Damage dealt by this power is not an attack.

### **Mind Control**

Give this character a power action; it makes a close combat or ranged combat attack as a free action that deals no damage. A successfully hit target becomes friendly to your force and canceled powers and abilities return. Each target hit can be assigned one action as a free action immediately after which the target becomes an opposing character again. Any feats assigned to successfully hit targets cannot be used by this character. This character takes 1 damage for each 100 points of the successfully hit targets' combined point value. A character with a range of 0 uses this power as if it has a locked range of 4.

### **Outwit**

Once during your turn, give this character a free action to counter a power or a combat ability (other than a team ability) possessed by a single target opposing character until the beginning of your next turn. A character using this power must be within 10 squares of the target and have a clear line of fire to the target.

### **Penetrating/Psychic Blast**

Give this character a ranged combat action. Damage from the attack is penetrating damage.

### **Perplex**

Once during your turn, give this character a free action to modify by +1 or -1 any combat value of a target character until the beginning of your next turn. A character using this power must be within 10 squares of the target and have a clear line of fire to the target, including itself. If a target character is damaged or healed, the effect of Perplex on that character ends immediately.

### **Phasing/Teleport**

Give this character a power action and move it up to its speed value. It automatically breaks away, may move through squares adjacent to and occupied by opposing figures and ignores the effects of all terrain on movement.

### **Plasticity**

This character adds 2 to its d6 roll when breaking away. Opposing characters subtract 2 from their d6 roll when breaking away from this character.

### **Poison**

Once at the beginning of your turn, as a free action this character deals 1 damage to each opposing adjacent character.

### **Probability Control**

Once during your turn, this character allows you to reroll one of your rolls, ignoring the original roll. A character using this power must be within 10 squares of the character for which the original roll was made, and have a clear line of fire to that character, including itself. Using the same rules, once per round during an opponent's turn, this character allows you to force that opponent to reroll one of their rolls, ignoring the original roll.

### **Pulse Wave**

Give this character a ranged combat action; halve its range value until the action has been resolved. Draw lines of fire to every character within range in every direction; these lines of fire are only blocked by walls, blocking and elevated terrain. All powers, abilities, traits and feats used by characters with a line of fire drawn to them are ignored until the action has been resolved, though wild cards using this power can use the team ability of a friendly character within range of this attack. At least one opposing character must have a line of fire drawn to it to activate this power. If ignoring a game effect would cause a character with a line of fire drawn to it to no longer have a line of fire drawn to it, then it is not ignored. If lines of fire can be drawn to two or more characters, this character's damage value becomes 1 and is locked. Make a single attack roll and compare the result to the defense value of each character with a line of fire drawn to it (hindering terrain still increases character's defense values by +1); each character hit is dealt damage. Attacks made with this power do not target characters.

### **Quake**

Give this character a close combat action; until the attack has been resolved, this character's damage value is locked at 2 if it is greater than 2. Make a close combat attack that targets all opposing characters this character can attack with a close combat attack. Each character that takes damage from this attack is knocked back.

### **Ranged Combat Expert**

Give this character a power action. It makes a ranged combat attack against a single target character; modify its damage value by +2 for the attack.

### **Regeneration**

Give this character a power action. Roll a d6 and subtract 2 from the result, minimum result 0. Heal this character of damage equal to the result.

### **Running Shot**

Give this character a power action; halve its speed value for the action. Move this character up to its replacement speed value and it may be given a ranged combat action as a free action.

### **Shape Change**

When this character is chosen as the target of an attack, roll a d6. On a result of 5 or 6, the attack can't be made and the attacker cannot attack this character for the rest of the turn. If the action becomes illegal, the attacker must choose another legal action to perform, if possible. The selected action must be a free action or non-free action based on what the action type was given to it that led to the attack.

### **Smoke Cloud**

Give this character a power action; put up to four hindering terrain markers in distinct, adjacent squares that are all within this character's range and do not contain blocking terrain. A character with a range of 0 uses this power as if it has a locked range of 1. This character must have a clear line of fire to at least one of the terrain markers. The terrain markers remain until the beginning of your next turn.

### **Steal Energy**

(Non-Optional) Each time an opposing character takes damage from a close combat attack made by this character, heal this character of 1 damage.

### **Stealth**

Any line of fire drawn to this character that crosses hindering terrain, including a square of hindering terrain occupied by this character, is blocked.

### **Super Senses**

When this character is hit by an attack, roll a d6 before damage is dealt. On a result of 5 or 6, this character evades the attack.

### **Super Strength**

When this character moves due to its own action, it can pick up an object as a free action and carry it. The object must be either in a square the character occupies or in an adjacent square. If this power is lost or countered while this character is carrying an object, immediately put the object in the square this character occupies. If this power is canceled while this character is carrying an object, it continues to carry the object. When this character makes a close combat attack targeting blocking terrain, a wall, or an object, modify its damage value by +2 for the attack.

### **Support**

Give this character a power action and make an attack roll against an adjacent target friendly character as though making a close combat attack. When using this power, neither this character nor the target can be adjacent to an opposing character; ignore all combat value modifiers for this action. If the attack roll succeeds, roll a d6 and subtract 2 from the result, minimum result 1. The target is healed of damage equal to the result.

### **Telekinesis**

Give this character a power action and choose one of the following options. For all options, this character must have a clear line of fire to the target and the destination square (to which the target does not affect the line of fire). This character, the target and the destination square must each be 8 or fewer squares away from one another. For options 1 and

2, a target character ignores the effects of elevated and hindering terrain on movement. (1) Move an Opposing Character: This character makes one close combat or ranged combat attack against a single target that deals no damage. If the attack succeeds and the target has or possesses the ✨ damage symbol (but is not a multi-base figure), the target can be moved to the destination square. (2) Move an Object or a Friendly Character: This character targets an object or a friendly character (that is not a multi-base figure) and moves it to the destination square. A target character needs to roll break away (if necessary) and would not ignore the effects of other characters on movement. Characters that have been moved with this power cannot use this power until the beginning of your next turn. (3) Attack with an Object: This character targets an object and must also have a clear line of fire to a single opposing character occupying the destination square as if this character occupied the target square. This character makes a ranged combat attack against the opposing character. The target of a successful attack using a light object is dealt 2 damage; a heavy object, 3 damage.

### **Toughness**

(Non-Optional) Damage dealt to this character is reduced by 1.

### **Willpower**

This character does not take pushing damage.

[This page is intentionally left blank.]

## Section 11 Abilities

### Capture

Give this character a power action and make a close combat attack against a single target opposing character with the ✖ damage symbol; targets with Phasing or Plasticity modify their defense values by +2 for the attack. If the attack succeeds, it deals no damage. The target character is captured instead, and is called a captive.

Remove all action tokens from a captive. Remove a captive from the battlefield until it is rescued (see below). While removed from the battlefield, a captive can't be dealt or take damage, and it can't be given actions.

If this character has three captives, it can't capture another character until at least one of the captives is rescued or released (see below), and it can't make close combat attacks.

If this character has any captives when it is knocked out, before removing this character from the game, the player who knocked out this character (including the player controlling this character if it was knocked out due to pushing damage or a similar effect) places each captive in an unoccupied square adjacent to this character's base and gives each an action token.

**Releasing captives.** When it occupies its starting area, this character can be given a power action to release one of its captives into an adjacent unoccupied square also in the starting area. A released captive is immediately defeated, and this character's player receives additional victory points for the released captive equal to 50 points or the released captive's point value, whichever is less.. If the game ends and this character has captives, no player receives victory points for the captives. If this character captures the last opposing character, the game ends after that action resolves.

**Rescuing captives.** Characters friendly to a captive can attempt to rescue that captive. To do so, give a friendly character a power action; it makes a close combat or ranged combat attack against the target character that captured the captive. The target modifies its defense value by -1 for the attack for each of its captives. If the attack succeeds, the attack deals no damage; instead, the attacker chooses a friendly captive. The captive is rescued and put into an unoccupied square adjacent to the target of the attack. Give the rescued character an action token; it can be given an action in the same turn it is rescued, but it is pushed normally.

**Countering Capture.** When Capture would be countered, roll 2d6; if the result of the roll is not doubles, Capture is not countered. If Capture is countered, all captives of this character are rescued immediately.

### Carry

When moving as a result of being given an action, this character can carry one friendly character. When this ability is used, modify this character's speed value by -2 until the end of the action. Only characters with a combination of the following symbols can be carried: 🏹, 🗡, 🛡, 🌀, 🏠, 🏡, ✖. If a character has any other symbols or is carrying an object it cannot be carried. To be carried, the friendly character must be adjacent to this character at the beginning of this character's action. When this character ends its movement for the action, the carried character must be placed in a square adjacent to this character at the same elevation. While being carried, a carried character is not adjacent to any character nor can it draw a line of fire until placed at the end of this character's movement for the action. A carried character can't be given an action (other than a free action) until the beginning of the next turn.

### Colossal Size

(NON-OPTIONAL) ~~Only~~ Characters with the 🏠 ✖ and 🗡 symbol **do not** block lines of fire to or from this character. When this character has two action tokens, it can be given a non-free action and deal it 1 unavoidable damage after the action resolves and do not remove action tokens from it at the end of the turn. A character with this ability ignores the effects of hindering, elevated, and outdoor blocking terrain on movement. This character can't be knocked back and can make ranged combat attacks against non-adjacent opposing character when they are adjacent to opposing characters. This character and a character on elevated terrain draw line of fire and make ranged combat attacks against each other as if they were both elevated, but terrain effects still apply normally. This character can make close combat attacks against elevated characters, even when this character is grounded. This ability can't be countered.

### Duo Attack

Give this character a power action to make a duo attack. This character has 🗡 for this action. It makes a close or ranged combat attack as a free action. After the attack resolves, it may make an additional close or ranged combat attack as a free action with its damage value modified by -1 to a minimum of 1. If this character is defeated or loses Duo Attack as a result of the first attack, the second attack is not made.

### Flight

This character ignores the effects of hindering terrain, elevated terrain, and outdoor blocking terrain on movement. A character **with-using** this ability can move through squares adjacent to and occupied by opposing characters. An elevated character **with-using** this ability ignores knock back damage if its knock back path crosses the boundary of elevated terrain.

### **Giant Size**

*(NON-OPTIONAL) This character can't be knocked back, and ignores Plasticity. When this character is given an action that includes a close combat attack, it treats other characters up to two squares away as if they were adjacent unless blocking terrain, elevated terrain or a wall would otherwise block the line of fire. This character can make close combat attacks against elevated characters, even when this character is grounded. Characters with the ✨ symbol do not block line of fire to or from this character. This character and a character on elevated terrain draw line of fire and make ranged combat attacks against each other as if they were both elevated, but terrain effects still apply normally. This ability can't be countered.*

### **Giant Stride**

*This character ignores the effects of hindering, elevated, and outdoor blocking terrain on movement and may move through squares adjacent to or occupied by opposing figures. This character adds 1 to its d6 roll when breaking away. When this character is given a move action, if it has zero action tokens, it can use the Carry ability.*

### **Indomitable**

*This character can use Willpower.*

### **Move and Attack**

*When this character is not adjacent to an opposing character, it can use Hypersonic Speed, however its attack value is modified by -2 and it does not halve its range value.*

### **Multiattack**

*Give this character a power action. It can use two free actions. These free actions can be power actions that include an attack, close combat actions, or ranged combat actions, though free actions gained from this power can't be used to activate this power. Resolve the first free action before giving it the second. Modify this character's damage value by -1 to a minimum of 1. This character can't use feats when using this power. This ability can't be countered.*

### **Sharpshooter**

*This character can make ranged combat attacks against adjacent opposing characters. When this character makes a ranged combat attack, it can ignore the effects of opposing characters on line of fire.*

### **Swim**

*This character treats water terrain as clear terrain for movement purposes.*

## Section 16 Maps

### **Airport Terminal**

Orange squares are moving walkways. At the beginning of each turn, each character completely occupying a moving walkway square that cannot use the Flight ability must be placed in this area 1 square closer to the thick orange line of this area. This placement starts with the character closest to the thick orange line.

Availability: DC 75

### **Blackest Night Starter**

Orange circles designate Monitor Room squares. Whenever a friendly character occupies a Monitor Room square, all friendly characters can ignore the effect of hindering terrain and other characters on line of fire. A character occupying a Monitor Room square can't be given ranged combat actions or make ranged combat attacks.

Squares inside the orange boundary line designate Armory Squares. When placing objects at the beginning of the game, each player must place their first two objects (if any) on squares within an orange boundary line.

### **Castle Doom Gardens**

Thick orange lines along the grid of this map are force fields.

When determining if a line of fire is blocked, treat force fields as walls. However, force fields are not walls or blocking terrain; they can't be destroyed and characters can't move over or through them using any power, ability, or effect (such as Phasing/Teleport or the Flight ability). Characters on opposite sides of force fields are not adjacent.

When counting squares to determine the range or area of any effect, you can't count beyond a force field. (To determine if you are counting beyond a force field, draw a line from the center of the square where the effect originates to the square you are attempting to count; if the line goes through a force field or through a diagonal bordered on the grid by a force field, the square can't be counted.)

Players must chose starting areas diagonally opposite each other, whenever possible.

Availability: Fantastic Four

### **Central Port**

Squares inside the boundary of an orange line are transmitter gates, hacked to echo local gates rather than distant planets! When any character occupies a transmitter gate at the end of a move or power action, it may be moved to any other unoccupied transmitter gate on the map.

Availability: Legion of Super-Heroes

### **Crater, The**

Orange squares are Fallen Cosmic Object squares. Objects placed in one of these squares can't be picked up, moved, or destroyed.

Availability: Brightest Day

### **Dawn of Man**

When this map is played, beginning with the first player, each player can take a Time Zone (a smaller map section with TIME ZONE in its name) anywhere within the boundaries of the orange line on this map. Place Time Zones until up to four Time Zones have been placed, or until all players agree that no more should be placed, whichever comes first.

When Time Zones are placed, they may be laid over previously placed Time Zones, provided that all parts of all Time Zones are within the boundaries of the orange line. Time Zones must be aligned with the grid of this map, but may be rotated in any direction before placement. Once placed, a Time Zone may not be moved.

Once Time Zones have been placed, a square on the map is the type of terrain indicated by the topmost map occupying that square, whether it be this map or a Time Zone. If an area of terrain on any map is interrupted by a map overlaid upon it, its boundaries are assumed to move to the nearest adjacent square or squares of that type of terrain so that all squares are contained within a continuous boundary; in some cases this may result in multiple separate areas of terrain.

Availability: Crisis

### **Deep Space**

Squares inside the boundary of an orange line on this map are space terrain. Space terrain is clear terrain modified by the following rules:

Characters given move actions when they occupy space terrain modify their speed values by +2 for the action. Halve the range values of all characters occupying space terrain and all characters drawing a line of fire to a character occupying space terrain.

A successful attack that does not otherwise knock back a character occupying space terrain knocks back that character a number of squares equal to damage dealt -2, to a minimum of 0. When targeting a character occupying space terrain with Force Blast, roll two six-sided dice instead of one. All knock back ends immediately when a character enters the first square that is not space terrain. Characters occupying space terrain are not dealt knock back damage if their knock back paths are ended by the edge of the map.

Availability: Supernova

### **Fountain of Asgard**

Squares inside the boundary of an orange line are bridge terrain. Bridge terrain is clear terrain, but when a character is moving as a result of an action assigned to that character, they can treat squares of bridge terrain in the same numbered row as adjacent for movement purposes only. (Not for tournament play)

Availability: Hammer of Thor

### **Graveyard**

Orange squares are hindering terrain for movement purposes and clear terrain for line of fire purposes. Any line of fire drawn to a character occupying an orange square is blocked.

Availability: The Brave and the Bold

### **Hawkworld**

Orange squares are Open Air (Low Gravity). After actions resolve, if a character who can't use the Flight ability occupies an Open Air square, deal them 1 unavoidable damage, then that character's owner ~~may place~~ places them in their starting area. Non-carried objects in Open Air squares are removed from the map. Open Air squares are otherwise treated as clear terrain.

Availability: DC 75

### **Krakoa**

The orange squares are Krakoa nerve center squares. They act as blocking terrain but cant' be destroyed. At the end of your turn, roll a d6.

On a result of 1-3, nothing happens.

On a result of 4, EARTHQUAKE! Each character is dealt 1 damage.

On a result of 5, SHIFTING FOLIAGE. Printed hindering terrain acts as blocking terrain instead until the beginning of your next turn. Characters occupying those squares take 1 unavoidable damage and are placed in their owner's starting area.

On a result of 6, THE ISLAND AWAKES. The Krakoa nerve center in the orange squares makes an 8 range, 10 attack, 3 damage range combat attack against an opposing character of your choice. The line of fire for this attack ignores hindering terrain and elevation.

Availability: Giant-Size X-Men

### **Rooftops**

Squares within the boundary of solid orange lines on the Rooftop map are open air terrain. Open air terrain is clear terrain, but with one additional rule: If a character without the  or  speed mode occupies open air terrain after the resolution of any action, deal the character 1 penetrating damage and place it in an unoccupied squares next to the stairwell (a square inside a dashed orange line) marked with the same number as the area of open air terrain.
